The prestigious Barsburg Military Academy; out 500 students, only 20 graduate and move on to become members of the Barsburg Imperial Military. Among them is Teito Klein. Orphaned and forced to being a sklave (a slave child soldier), he has faint memories of his past, until he meets Commander Ayanami. Upon overhearing a conversation in school, Teito realizes that Commander Ayanami was the one who killed his father, so he attacks him. Unfortunately, he was easily thwarted. Thanks to his best friend Mikage, he was able to escape, but not without being seriously injured. Teito is found by the three bishops of the Barsburg Church: Frau, Castor, and Labrador. In the church, he was given sanctuary so that he can rest, recover and finally uncover the truth about his past. But little does Teito know that he is in the middle of something much bigger: an epic battle between the fallen god of death Verloren and the Seven Ghosts – spirits sent by the chief god to seal away Verloren.

The past is an important part of our lives. However, it neither defines who we are nor our future. That's why no matter how dark and muddled it may be, we can always strive for a brighter tomorrow. If you do not believe what I'm saying, then watch Teito Klein uncover his past and change his future in 07-Ghost.

What's admirable in this anime is its well-established and immense fantasy setting. The world has a detailed history, mythology, and culture. Also, 07-Ghost has a well-explained concept of an in-universe magic called "zaiphon", and it is treated so systematically as if it is science in their world.

Another plus for the series is that the very diverse cast affects the tone of the series. Because Teito has a rather dark and brooding backstory, the supporting cast lightens the atmosphere, providing some humor and optimism.

So if you're looking for a high fantasy anime with an epic world, a lot of bishounen. A serious atmosphere with lighthearted moments along the way awaits you in 07-Ghost.

# THE 8<sup>TH</sup> CHRISTMAS TOYS & COLLECTIBLES FAIR

The Christmas Toy Fair just became bigger and better. Renamed to **Christmas Toys & Collectibles Fair**, because it has now partnered with Collectibles Unlimited, DC Comics and Toonami. All for the celebration of Superman's 75th anniversary. Thus the event was subtitled, *Celebrating a Season of Heroes*.

A collector also boasted a limited edition Action Comics, Superman's debut in comics released back in June, 1938.

This Toy Fair is also for the benefit of a charity fund-raising and relief drive for the children of Typhoon Yolanda survivors. Anyone can donate to the donation boxes or bid to a toy in the auction where all your money goes to the charity. The higher the bid, the more they get, the better.

The event featured a major Superman exhibit and live exhibit. There were people in superhero costumes and t-shirts, spreading entertainment, holiday cheer and good cause.

Of course no one should underestimate the otakus. Anime fans were all around buying anime figmas, nendoroids, assorted toys and magazines also available in the event.

Outside the hall, there were also otakus wearing costumes, taking pictures or just hanging around enjoying the event.

In the future, Gunplas are not just built; they are also pitted against each other in the highly popular Gunpla Battle. Our young hero Sei Iori, a highly talented Gunpla builder, dreams to be a renowned Gundam fighter, just like his father Takeshi. However, after a string of losses, he begins to doubt the chances of his dream ever coming true. Then, just before he gets another loss, a mysterious kid named Reiji appears, pilots his Gunpla on his behalf, and wins. Thus, with his dream reignited, Sei and his newfound friend Reiji fight on to become the best Gundam fighters.

Instead of being centered on war just like the other Gundam titles, Gundam Build Fighters has a more lighthearted and optimistic tone, with exhilarating one-on-one Gundam battles as the main driving force behind the action. While the series easily appeals to a younger fanbase, it also features mobile suit models as well as cameo appearances of other characters from the different Gundam titles, giving older fans that much-expected nostalgia.

The Gundam franchise has been around for more than thirty years. It redefined the mecha genre, spawned many titles across different media and launched Gunpla – plastic model kits of mobile suits found in the different Gundam titles. Gunpla emerged as an immensely popular hobby among fans, casual audiences, otakus and plastic model enthusiasts alike. And for the first time, Gundam has decided to make a show all about Gunpla building and fighting. Feel and take in the breath of fresh air that is Gundam Build Fighters.

With a new twist, familiar elements, and awesome fight scenes, Gundam Build Fighters is not only a very welcome addition to the wide roster of Gundam titles, it is also proof that the franchise is still one of the best and easily recognized in the mecha genre.

Why choose between "health" and "taste"...

## Oshogatsu Success!

New Year or oshogatsu calls for starting fresh but in Japan, not everything old is thrown out, just like the traditions that they still keep during this time. Celebrating the New Year requires careful and rigorous preparation to ensure that on New Year's Day, people get to relax and enjoy the day. All these preparations are for the belief that whatever you do and whatever you feel on the first day will represent the rest of the days of the coming year.

Days before New Year, people are busy with celebrating year-end parties, paying their debts, and osoji or spring cleaning. These customs symbolize purification and how people are ready to move on to a new year. Aside from these, the entrance of the houses are decorated with kadomatsu which is made out of bamboo and pine twigs to welcome the Shinto gods because they are believed to reside in trees, and this decoration represents virtue and strength. The gods are also welcomed by shimenawa, a sacred braid of straw with white paper strips dangling from it; and rice cakes as offerings.

Then, on New Year's Eve, people eat toshikoshisoba or buckwheat noodles, which is said to bring long life. Otherwise, it will bring bad luck if eaten past midnight. Everyone also stays up to hear the temple or shrine bell ringing 108 times believing that the listeners will be purified of the 108 evil passions human beings experience. Some people stay at home during this time while some already go on their way for hatsumode or first shrine visit of the year.

Performing hatsumode is an important ritual in the beginning of the new year because even though the temples get really crowded, people are devoted in offering to their gods, and praying for a safe, healthy, and prosperous new year. People also get their fortunes told by buying an omikuji, a thin roll of paper that tells a person if they have great blessing or ill luck in many areas of their life, like love, health and finances. Then, the next best way to start the new day is to watch the first sunrise of the year called hatsu-hinode.

If Filipinos have aguinaldo, money given to children during Christmas, the Japanese have their own version of this during New Year's called otoshidama.

Aside from getting good luck, New Year's for the Japanese is all about celebrating a brand new opportunity in life. So, akemashiteomedetogozaimasu, minna! (Happy new year, everybody!)

## CRAZY FOR OSECHI RYORI

You can't call New Year celebrations as the Japanese oshogatsu without osechi ryori, a colorful variety of food packed in jubako (multi-tiered lacquer boxes). Not only to keep stomachs full in the first days of January but these traditional dishes also represent good fortune and happiness awaiting people. Although some ingredients may vary, osechi ryori primarily consists of these sumptuous treats.

## OTAKU LIFE HACKS

# SUBSONIC FORGE

Where close enough is not enough

Ever wanted to try making your own props for your cosplay but you don't know what materials to use? Worry no more! For the master of propsmaking is here to help!

SUBSONIC FORGE, maker of the most sought-after crafts/props in the Philippines cosplay industry, is here to give us tips with our crafting quest~ SO, LET'S LEARN THE BASIC MATERIALS FIRST...HERE WE GO!

## BASIC MATERIALS

### Wood

Used as the core or backbone of your prop or as the main material itself.  
+ Very durable and ideal for details  
- Heavy

### Rubber Foam/Sheet/Mats

Most commonly used material in the local cosplay world.  
+ Durable and light  
+ Comes in different shapes, colors, sizes, thickness and texture  
+ It can be heat molded  
+ Available at hardwares and shoe supply stores

### Paper & Cardboards

+ Good for beginners and hobbyists with or without experience  
+ Paper craft, tutorials and printables are available on the internet  
+ Also used for sculpting and papermache arts

### Plastics

Plexiglass, polystyrene sheets, PVC sheets. Most of them are thermoplastics which can be heat formed and molded.

## For the BASE (for sword, lance, etc.)

### Wood

+ Hard and sturdy  
- Can break to stress and force  
- Heavy

### PVC

+ Readily available, cheap, durable, flexible

### Metal

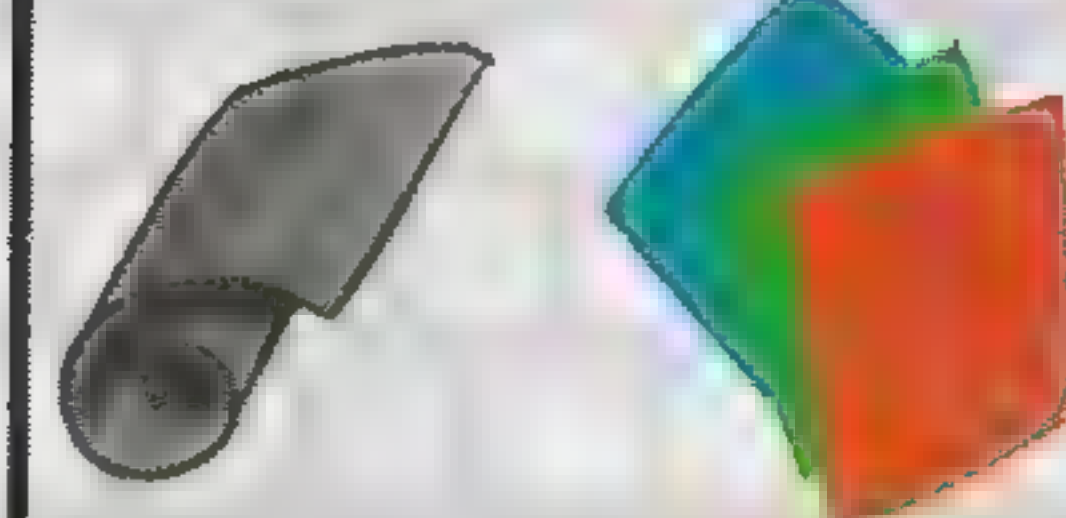

+ Strong  
+ Choose between heavy solid or light hollow

I do not recommend metal cores since they are heavy and expensive compared to others. Metals are usually not allowed in event areas with tight securities.

## For Crafting details

### Rubbersheet and Craft foams

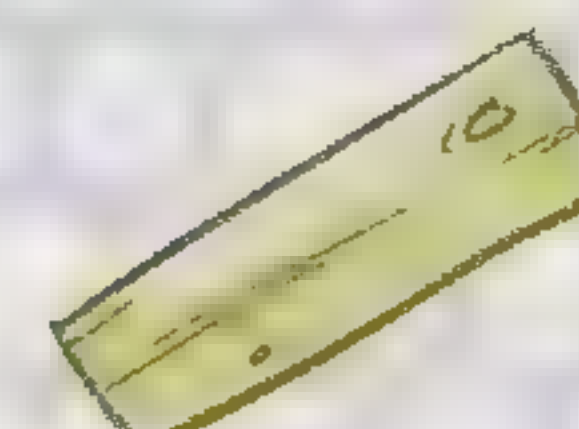

Can be done in layer by layer or in a whole 3D hollow part. Different thickness and patterned sheets give more details and style.  
Sanding rubber makes a rough furry texture.  
Heating it with fire or a heat gun will flatten it out.

### Paper/Papermache

Ideal for those hard to do 3D details or sculptured designs  
Bits of paper soaked in glue, cover the surface in layers

### Wood

Can also be used in layers to achieve details.  
Sanding, pressing and burning details on the wood can be done.  
\*wood differ from one another so what you do on narra will be different on oak.

### Metal

Metal are only to be used in details or sparingly since it is heavy  
Things like nuts, bolts, screws, rivets, rings, chains and other items that look closest to the intended design.

### Fiberglass

Fiber glass requires a lot of work and time to use and is quite expensive. Its done in 2 parts the glass fiber mats and the resin. The resin is mixed with a hardener and the applied on to the surface of the object, then the fiber glass mats are placed on top while more resin is applied. More layers mean more strength. Detailing with fiberglass is done by placing the fibers on top of a pre-made detail or done in a negative mold.

### Acrylic board/Plexiglass

Usually used in large signages, displays, enclosures and more.  
Also a thermoplastic that can be formed and molded to a shape.

### Polymer clay

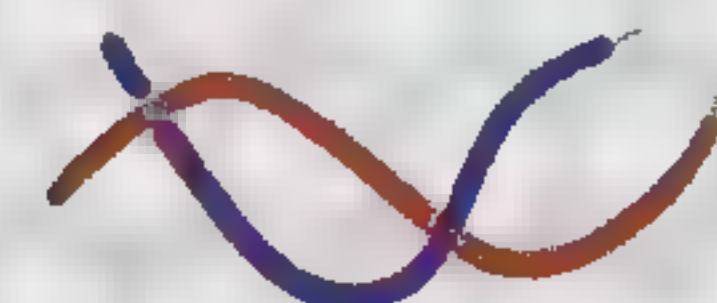

Comes in different colors and consistencies. Very easy to shape, sculpt, carve and detail. Clay maintains its shape when baked in an oven to fully cure and harden. Available at some art supply stores.

### Styrofoam

Parts can easily break and chip off.  
Do not use lacquer type paints since it will dissolve the material.

### Cables, string and ropes

Used for linear details and linings.  
Paint them before attaching or glueing in to place.

### Hot glue/Glue gun

Also used for more organic and freestyle details since it is hard to make a consistent flow of glue from the gun thus making uneven details.

## ADHESIVES

### 888 super glue "Greco" and "Evotite"

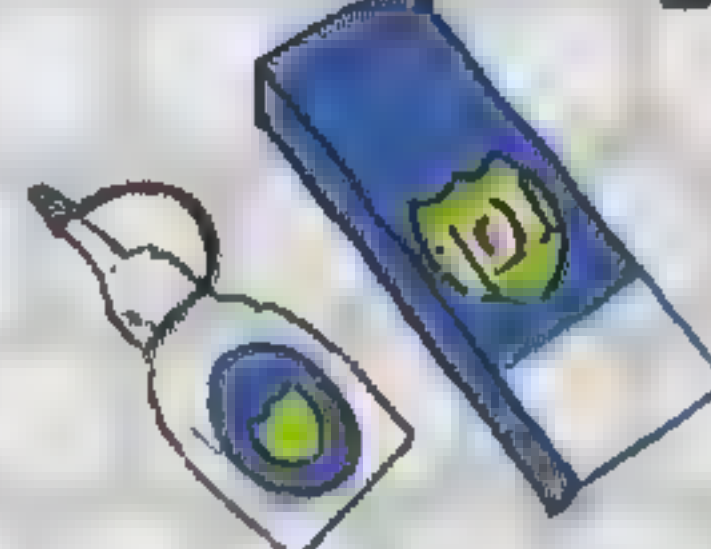

- + Widely known and most commonly used in the cosplay and shoe industry
- + It sets and dry fast (2 secs) when applied most of the time
- You wont have enough time to attach or adjust the parts
- Hot and dangerous. Burns skin and some surfaces

### 502 super glue

- + Common in most retail stores and in DIVI
- \* I prefer this glue since it dries and sets at around 5-10 secs giving you enough time to set and align the parts to be glued.

### 101 super glue

- This type is quite rare and a lot of users say it's useless since it takes around a minute for it to set and dry.
- \* I found a great purpose for this kind of glue since it dries and sets longer, does not bubble up or boil and is smooth, clear and almost polished when cured.

### Contact rubber cement

- Also known as 'Rugby'
- + Can be used for large surfaces to glue together
- + Good for cloth to rubber, rubber to wood, cloth to wood

### Hot glue

- + Quick and easy to use
- Can be messy
- The heat can sometimes deform the materials to be glued

## TRICKn'TIPS

Always use sharp blade tips for a clean cut

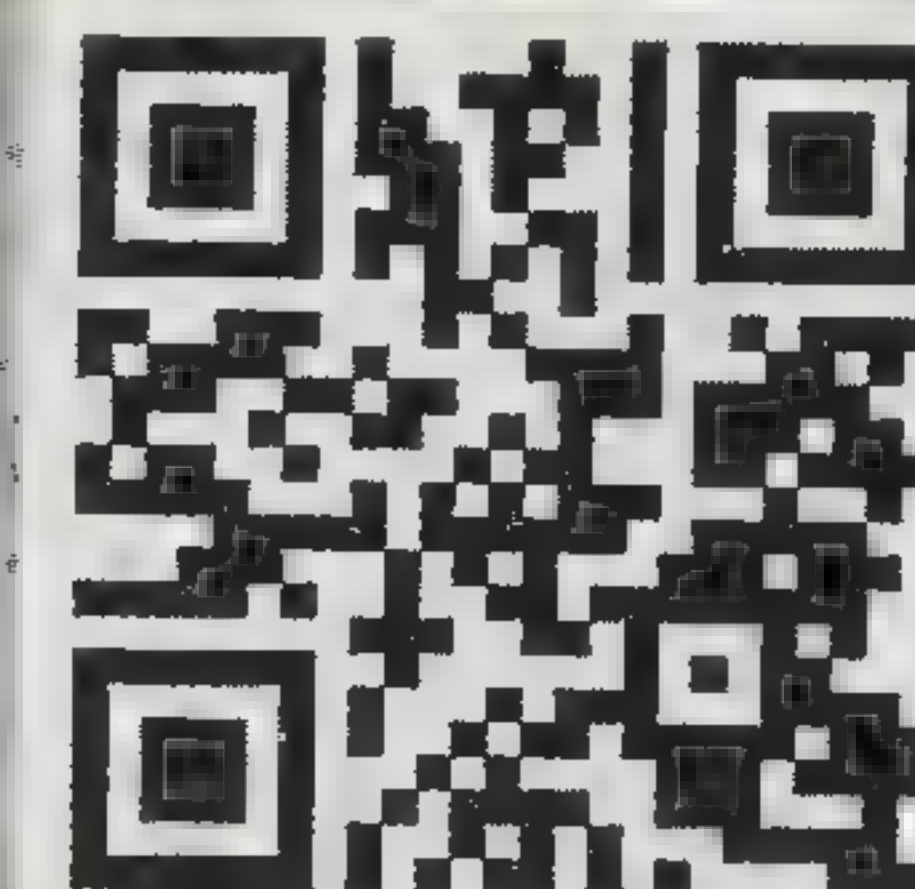

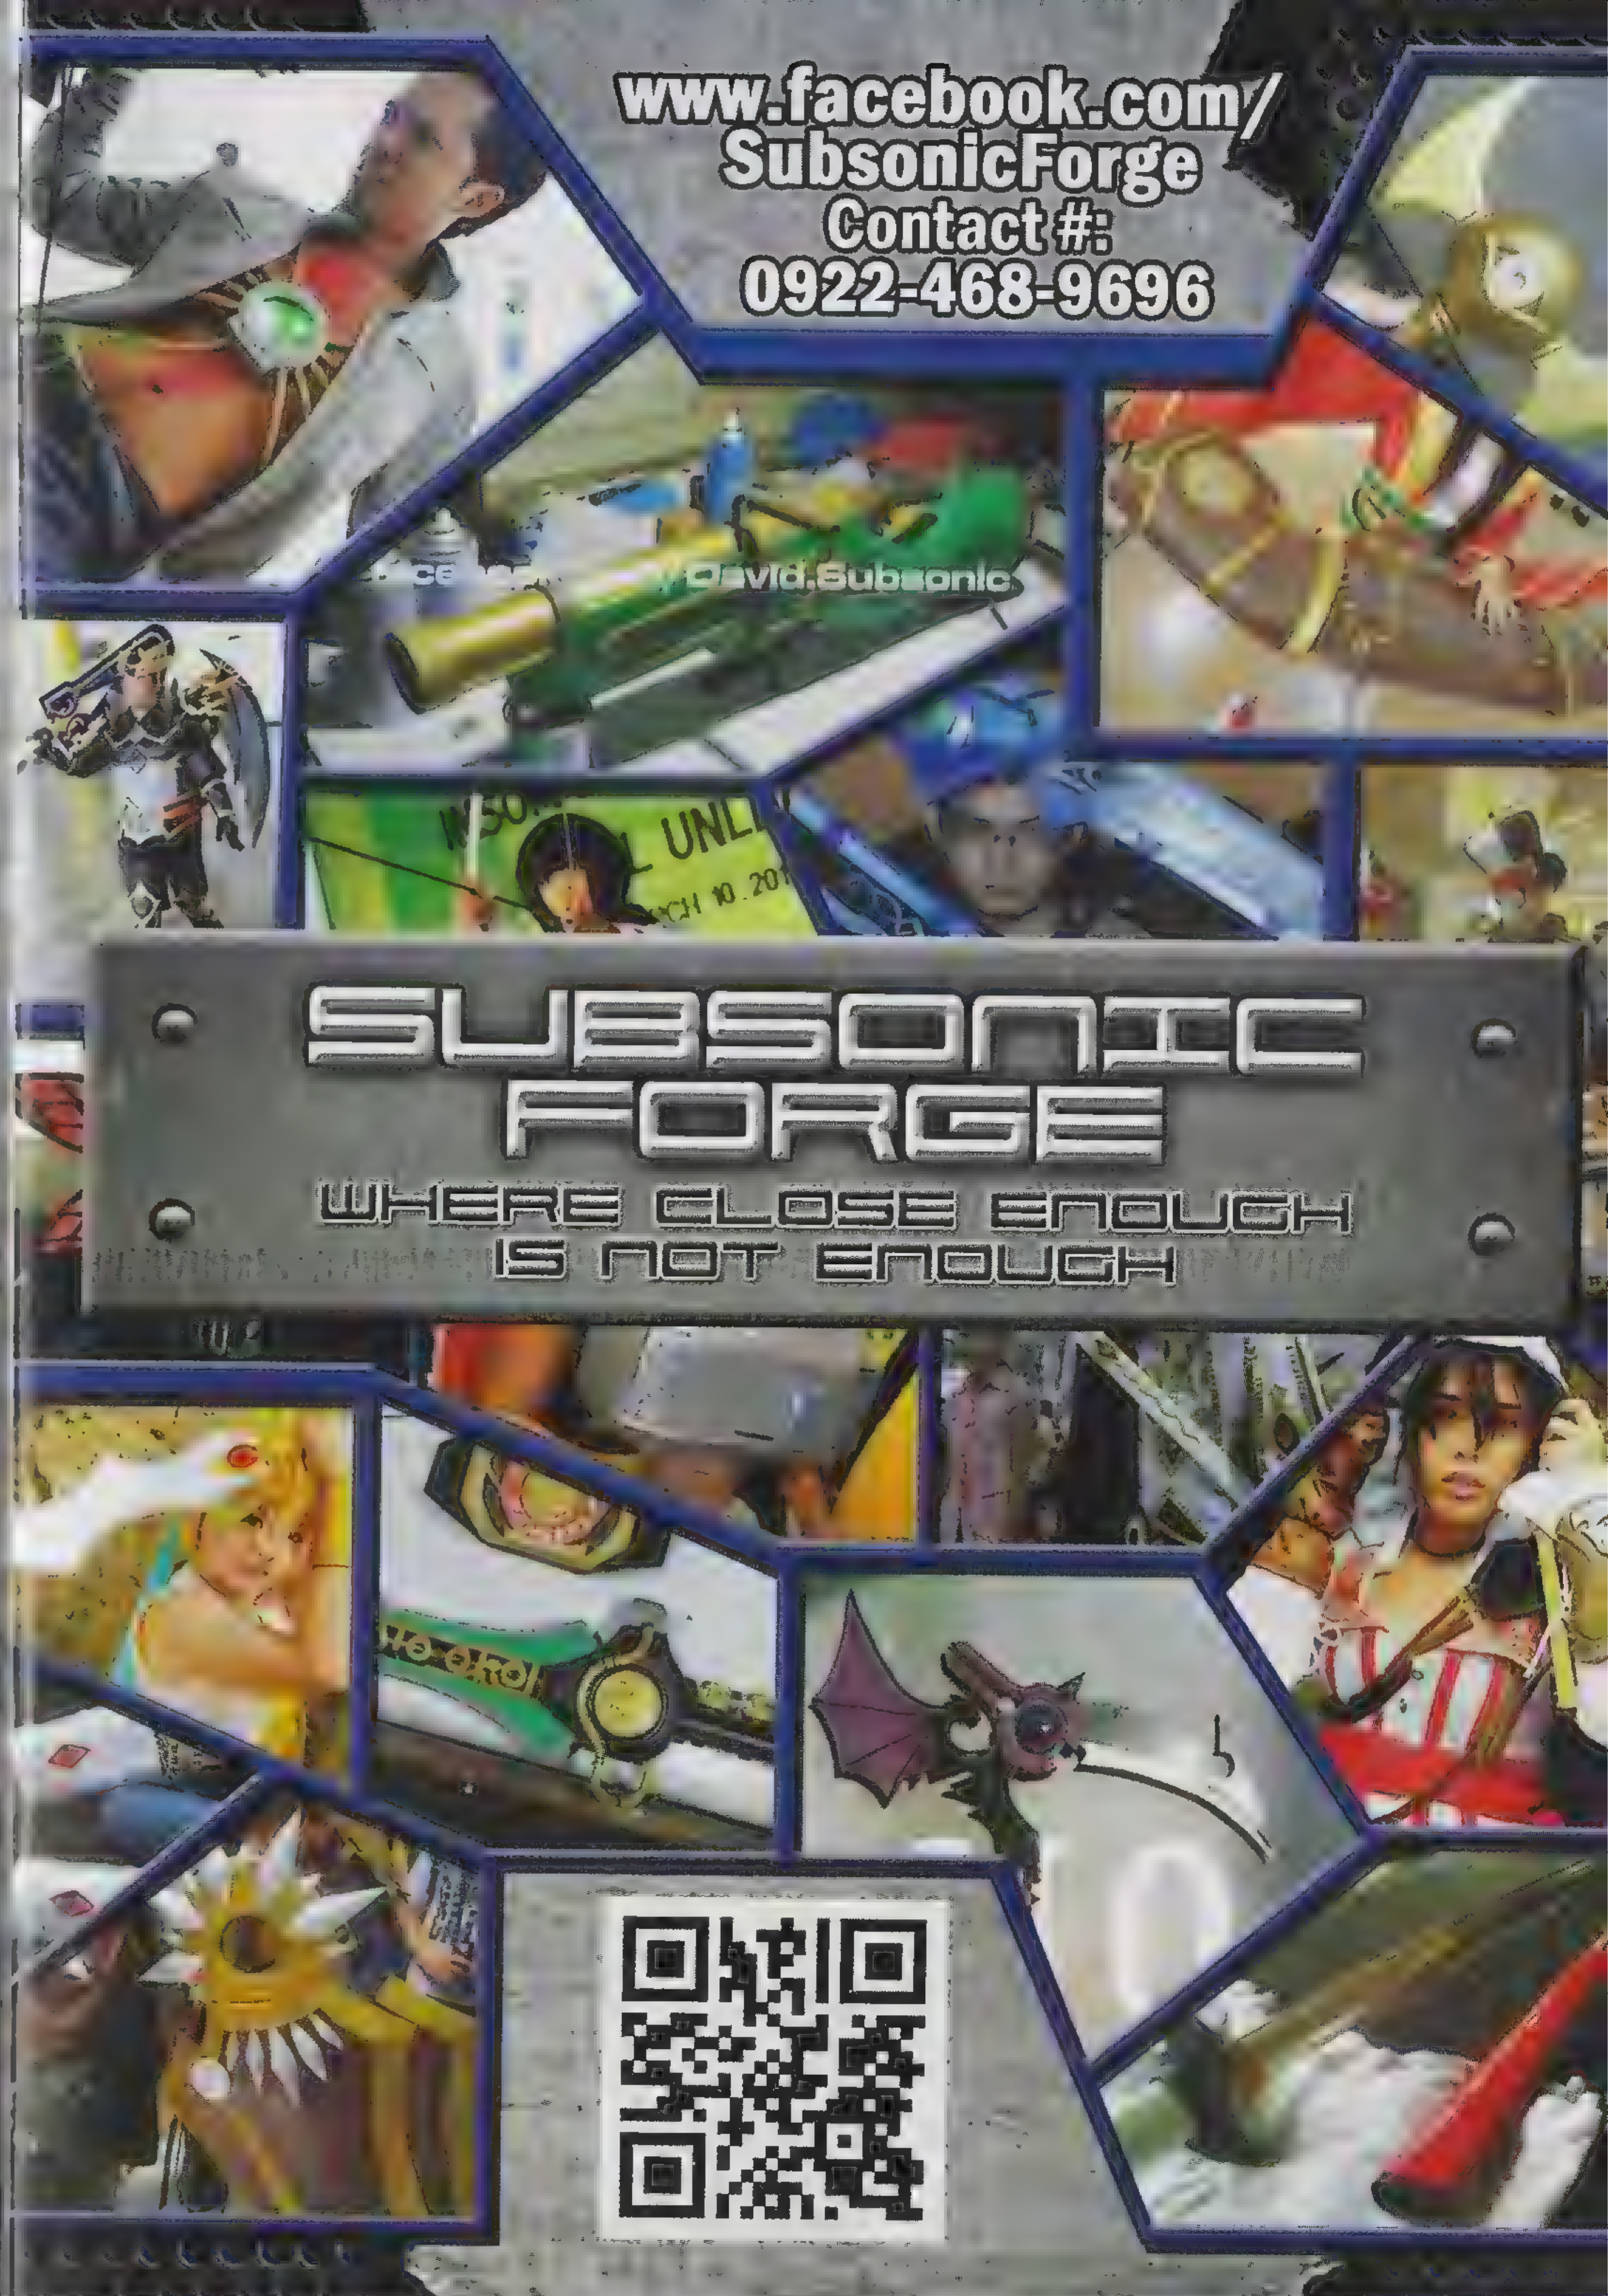

- Super glue reacts to rubbers making it dry and set faster.
- Pouring another layer of Super glue over parts that already have been glued or have some glue on it will dry longer.
- Remove or sand off any dried super glue when gluing or re-gluing new parts together.
- Take note when cutting parts, if you started inside, in the middle or outside the drawn line.
- Sand of the sides of the materials with sand paper to give some extra detail and a cleaner and non-boxy look.
- Proportion of the prop to the wearer or wielder is very important. Over sized or undersized does not look good.

## ANIME FESTIVAL ASIA 13

written by: Ann

A day is simply not enough to contain all the fun and surprises for otakus, so Anime Festival Asia (AFA) decided why not a convention in Singapore for three days?

From November 8 to 10, AFA was held at the Suntec Convention and Exhibition Centre where guests were able to enjoy booths left and right inside the exhibit area. From merchandise to autograph booths, as well as Maid and Butler Cafe, and Manga Festival, guests enjoyed every bit of what AFA had to offer. One of the highlights of the exhibit is the Attack on Titan's life-sized Titan Head.

From Day 1 to Day 3, guests flooded the area for the performances on the main stage such as the movie screening of Gintama Final Movie; anime showcase of Little Witch Academia, Psycho-Pass, Sword Art Online, Love Live! School Idol Project, Attack on Titan, Valvrave, Noragami, and Starchild featuring Coppelion, Hozuki no Reitetsu and Knights of

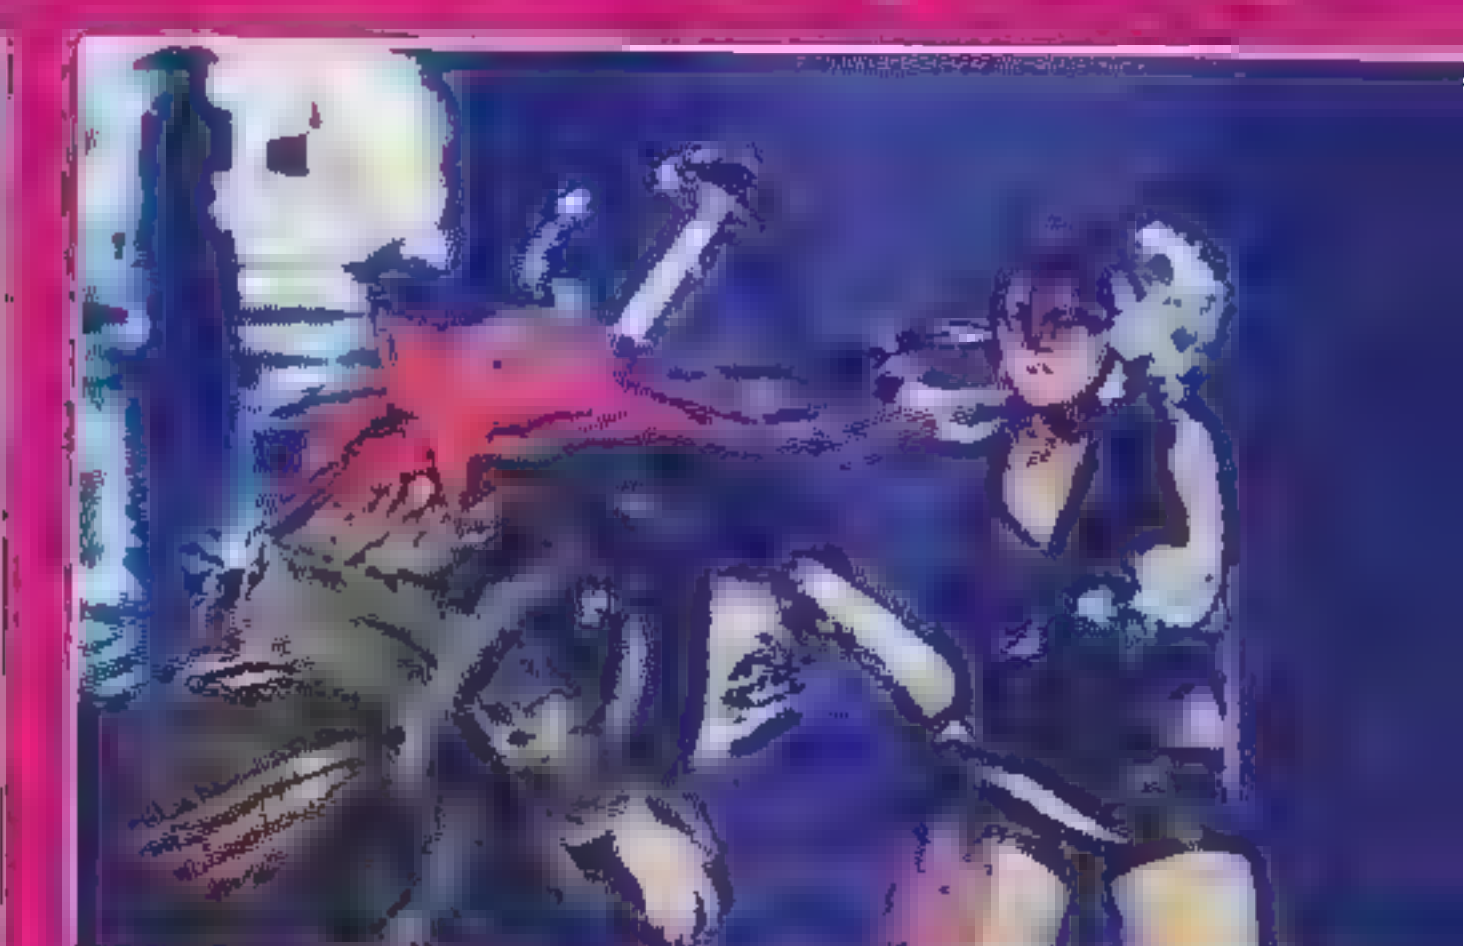

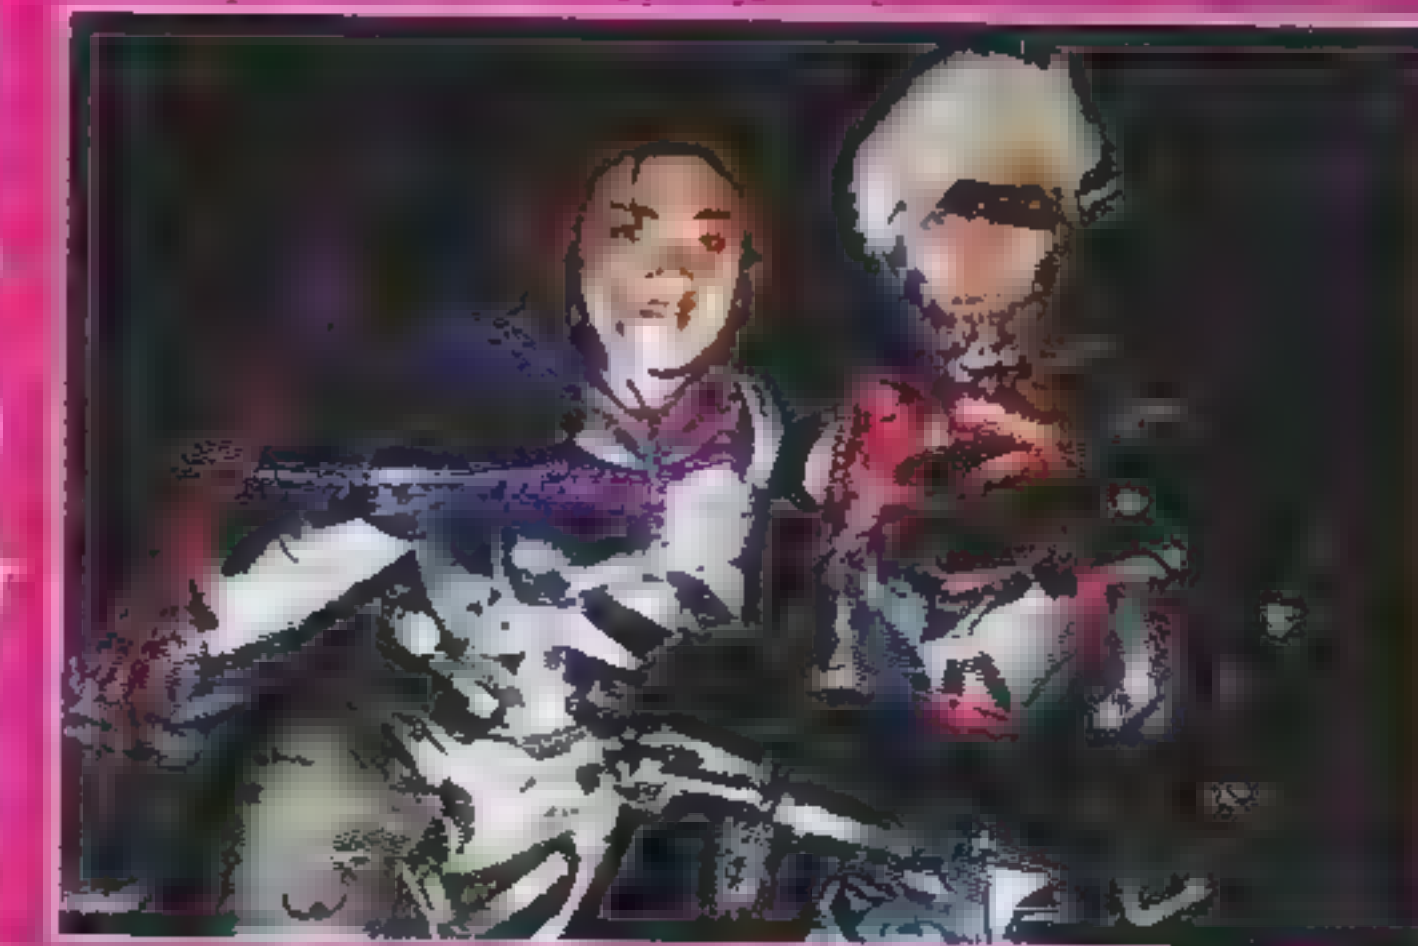

Sidonia; and WOW Japan by AFA Channel Music showcasing Prizmmy. I LOVE ANISONG Concert was also a sight to behold with the performances of EGOIST, livetune, Hachioji P, motsu X DJ KAYA, Valerie, Eir Aoi, LiSA, Milky Holmes, May'n, angela, and ELISA, plus T.M. Revolution and Nana Mizuki for Valvrave Night on the last day.

Meanwhile, on the mini stage were guest appearances of Cocolo-chan; Asia Kawaii Way's special feature of 217, Alodia, Miume and Tenchimaru; and VIV KIMI Talk with Toby Mascot. Artistes such as Valerie, Ayaka Ohashi, and Azusa Tadokoro were also present to grace the event. Also included were showcases of BABYMETAL, Itowokashi, Microsoft, and MARBLE WONDERLAND by Asia Kawaii Way for Fashion. There were also Canon Photo Moments with Onnies, Hana & Baozi, Clive, Natumi, plus Autograph Sessions with Angie, Ying Tze, and Reika; Space Dandy Special Segment by Animax; Cosplay Singles Competition; WOW Japan Marathon; and Team Vietnam's Cosplay Special Segment.

Aside from all these heart-pounding performances was the AFA Regional Cosplay Championship (ARCC) Grand Finals with contestants from Indonesia, Malaysia, Singapore, Thailand, Philippines and Vietnam.

### Indonesia

### Philippines

### Singapore

From D'Bronz of Indonesia, Wijaya Wijaya and Rian Cahyadi who cosplayed as Samuel and Raiden from the game Metal Gear Rising were declared as champions, while Philippines' Rommil Donaire, Jr. and Krislyn Branzuela cosplayed as Dylan and Hrist Valkyries from the game Valkyrie profile 2: Silmeria and placed as a runner-up, and Jovi Lum and Tessie Tan from Singapore who cosplayed as True Orge and Zafina from the game Tekken won as second runner-up.

Some of our friends who were with Cosplay Network Philippines (CNPH) went to the event and shared their experience during the AFA 2013. Brian Rodelas, Jene Kirishima and Faye Liper all agreed that the best parts of their AFA experience were meeting international cosplayers, guests and photographers; getting goodies and freebies; and of course, the well-organized event. Brian also mentioned that he liked the I LOVE ANISONG Concert of LiSA and Aoi Eri. They're already even planning their next AFA! If Brian's expecting to see LiSA again and more Pop artists like Scandal, One OK Rock, and agreeing with Jene's suggestion of Supercell, Faye, on the other hand, wants to see Yui of Japan.

If these folks had a blast in AFA 2013 in Singapore, start crossing your fingers for AFA Philippines!

Get your gears ready for an awesome meet with a team of MMORPG players who are persistently discovering their way into the world of **Elder Tale** from the anime **Log Horizon**

## Shiroe

Who would've thought that this awkward, megane-kun, is a highly capable mage and strategist? But if you look closely, he is the perfect epithet of a gamer. An introvert at heart, he seems cautious around people even with those whom he likes and respects. He has a long list of friends in his game account but contacts only very few people. He constantly refuses to be a part of any guild, but this slim megane-kun is a reliable tactician with years of experience. Having played the same role in the now defunct Debauchery Tea Party guild, Shiroe has been honed into someone dependable and critical-minded. Because of this, a lot of gamers are taking advantage of his intelligence, partly the reason why he doesn't want to be a part of any guild.

As an Enchanter, his mastery includes Full Control Encounter which enables him to forecast battles 30 seconds in advance. Meanwhile, his subclass as a *Scribe* allows him to draw maps precisely. He later on forms the guild "Log Horizon" when he realizes that he has the capability to protect others within a group.

## Griffins

A flying creature with the body of a lion, and the head, wings and legs of an eagle. Its body ranges from two to four meters in length. With its ability to fly and carry up to two passengers at once, some Griffins are trained as mounts.

Shiroe's group uses griffins to cross the lands to rescue another player.

The transport decreased their travel time of two weeks to three days.

Briar or Brier Weasels aggressive and territorial monsters, attacking any players who dare venture into their territory. They have the magical abilities to control plant elementals, shoot laser beams from their whip-like tails and usually attack in numbers.

In Chinese Zodiac, the year 2014 is under the animal sign, horse: the embodiment of socialization and adventure. But truth be told, not everyone can keep up with a horse's enthusiasm. Some people are still socially uncomfortable and normally conservative. Take Shiroe's example as a graduate school student who has been playing the game "Elder Tale" for the past eight years. He doesn't seem to mind if he cannot meet his online friends even though he had known them for a long time. But this is definitely not how Shiroe envisioned finally meeting his online gaming buddies Naotsugu and Akatsuki in real life. They only wanted to see the newest update "Novasphere Pioneers" of Elder Tale and familiarize themselves with the expansion pack. But in a flash, they find themselves stuck inside the world they have been accustomed to play.

The anime starts in medias res where Shiroe and his group are rapidly fighting low-leveled monsters called *Brier Weasels* within Akihabara chapter. Surprisingly, they can use the skills and abilities they have garnered through years of playing the game. However, there is too much action in the puddle of confusion, and they haven't crossed paths with a lot of players yet. Only one thing is for sure: it is neither a game nor a dream, but a reality. More than 30,000 Elder Tale players in Japan and thousands of others all over the world who logged in at the time of the update have been experiencing this scenario-change.

Log Horizon is originally a light novel series in 2010 written by Mamare Touno. Later in 2012, it has been adapted into four manga editions, all four still on-going with the same writer.

Under the animation Studio Satelight, an anime adaptation has been aired since 2013 and extends to this year.

Despite Shiroe's love of privacy, he was smart enough to realize that he is not alone. He did not ignore the fact that people need his help now more than ever. Being stuck inside a game changed it all.

He decided that the best way to help the situation was to form a guild. Shiroe named it Log Horizon.

## LOG HORIZON

### The Elder Tale Gamers and their Friendly Quirks

Amidst all the seriousness you can get from this anime, the whole cast has a lighter side in them which makes the character portrayals suitable for this anime genre.

A cat sent from above, Nyanta is a capable sub-class Chef who can cook real food with taste. He gathers and cooks all the ingredients himself rather than depending on the automatic in-game food in their game menus. He is also the former Chief of Debauchery Tea Party who Shiroe and Naotsugu used to collaborate with. He is a cool but flashy gentleman as evident on his gestures. He was the one who took care of Serara after saving her from Brigandia Guild.

## NYANTA

Shiroe decided to purchase an entire building in the outskirts of Akihabara as their guild base.

The building allows guests for events and discussions. Shiroe playing a significant role in their make-shift government and society within the game. As decided by the organization of the Round Table Alliance.

Other activities are made possible in the large space. Every member of Log Horizon has his or her room, spacious halls for practice and studying.

## GUILD BASE

## NAOTSUGU

An open pervert and proud to be one, Naotsugu is a tall and buff guy who's been friends with Shiroe for a long time, dating way back to the Debauchery Tea Party guild era. They got to know each other online at Elder Tale first, and later on met in real life as well. He often cracks jokes, making him the life of the group. He has a like-hate relationship with Akatsuki, and would often receive kicks from her because of his rude punch lines.

Naotsugu is a powerful Guardian who's ready to plunge into danger when his friends are in trouble. He may not be that intelligent, but his knowledge is practical and his strength is useful in battles.

## AKATSUKI

She first appeared as a male character, and only when she asked for Shiroe's appearance-changing potion did they get to know that she is actually female and child-looking at that. Since then, she has offered her services as a Ninja to Shiroe and addresses him "My Lord". Most of the time, she is irritated by Naotsugu's antics that often kicks Naotsugu in the face. Despite her fierce and competitive attitude, Akatsuki's tsundere nature is a good blend to their group. She is a loyal friend and a reliable Assassin weapon-based class in battles. It is later revealed that despite her looks, she's as old as Shiroe.

Beginners before The Apocalypse, twins Tohya and Minori approached Shiroe about how to acquire items and learn skills. At that time, the 12th expansion pack was already released. They lost contact with Shiro since then. In-game, Shiroe sees the twins with a guild, thinking that it's good for them. But it was in fact a vindictive guild that asks children to do things for them.

## TOHYA & MINORI

## MOVIE REEL

PERSONA3 THE MOVIE  
Part 1: Spring of Birth

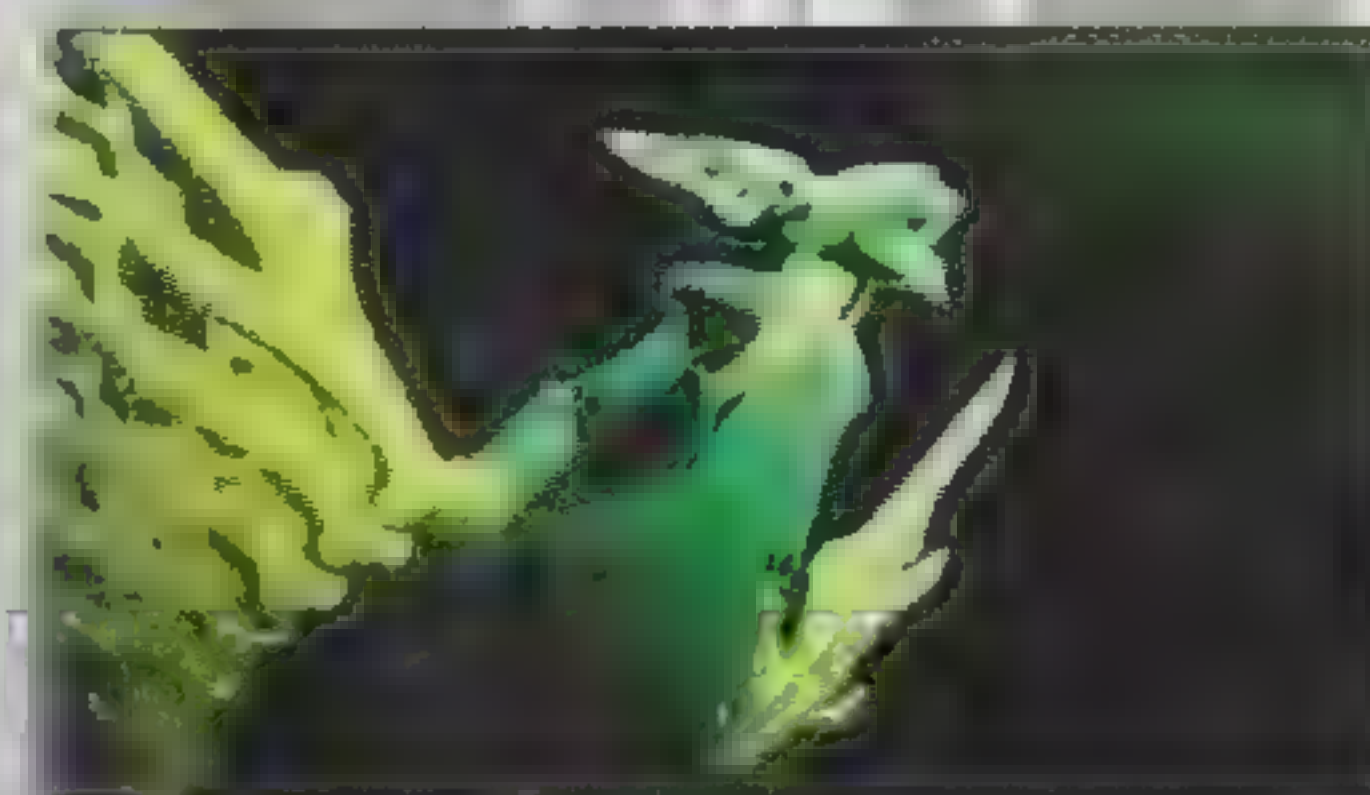

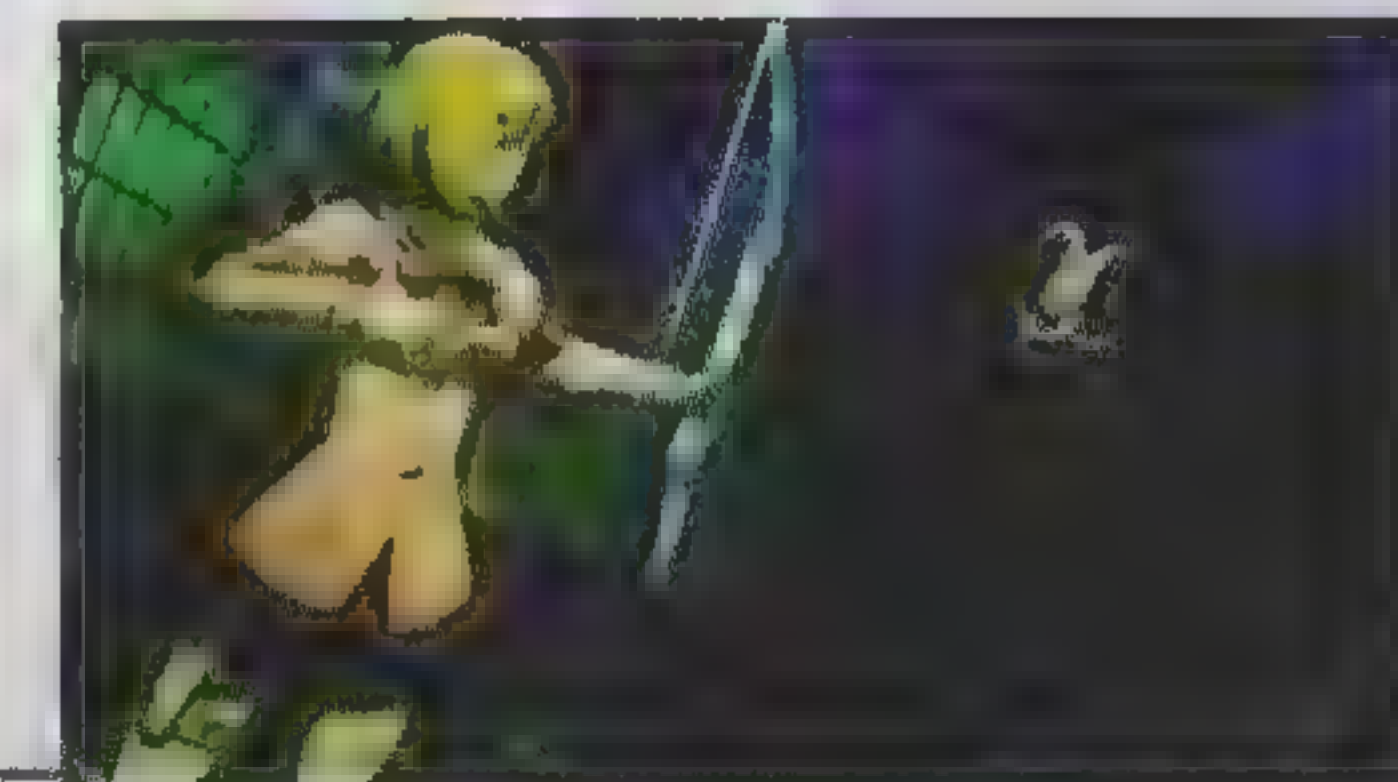

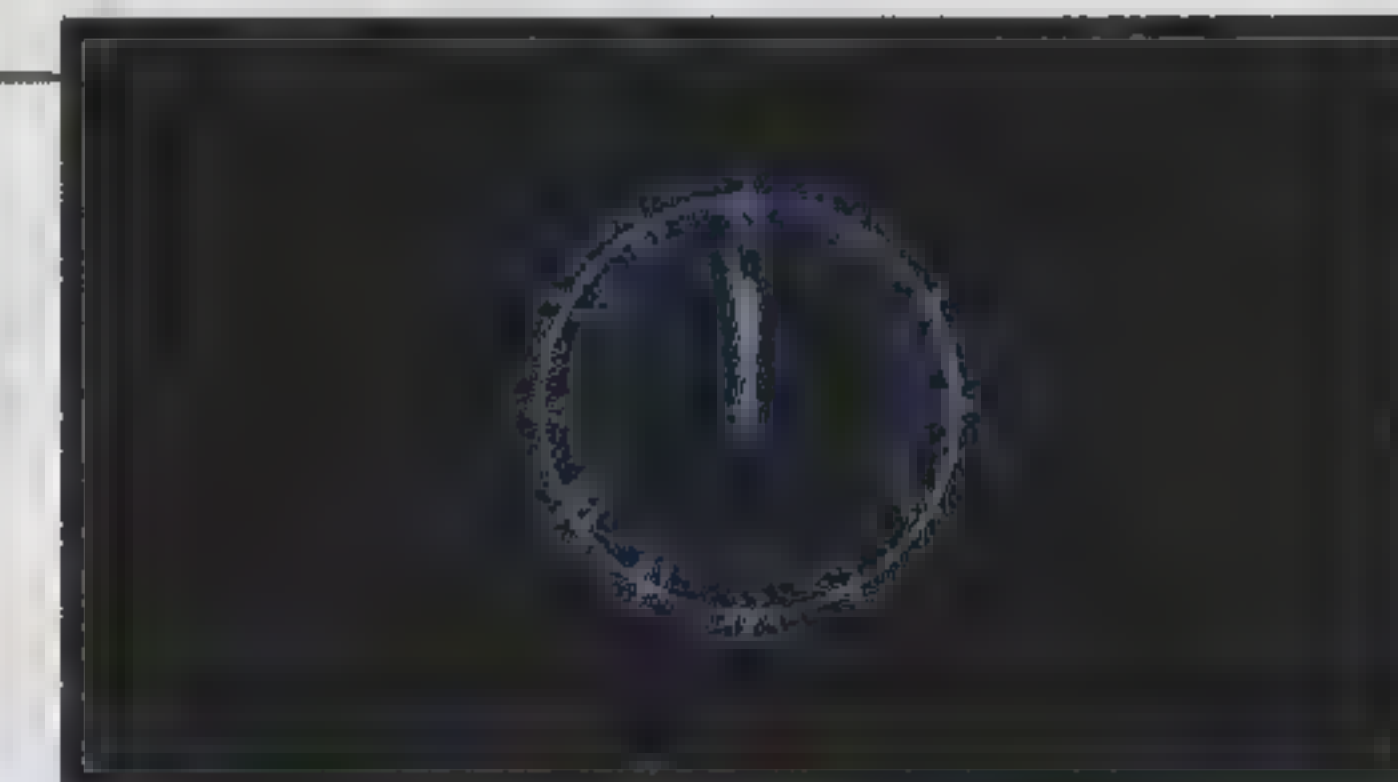

There is a world that lurks deep within the shadows. A world full of mystery, danger, and fear. And those who have stepped from our world into that one will have their lives changed forever. Follow the footsteps of those who tread in the dark in the movie Persona 3: Spring of Birth.

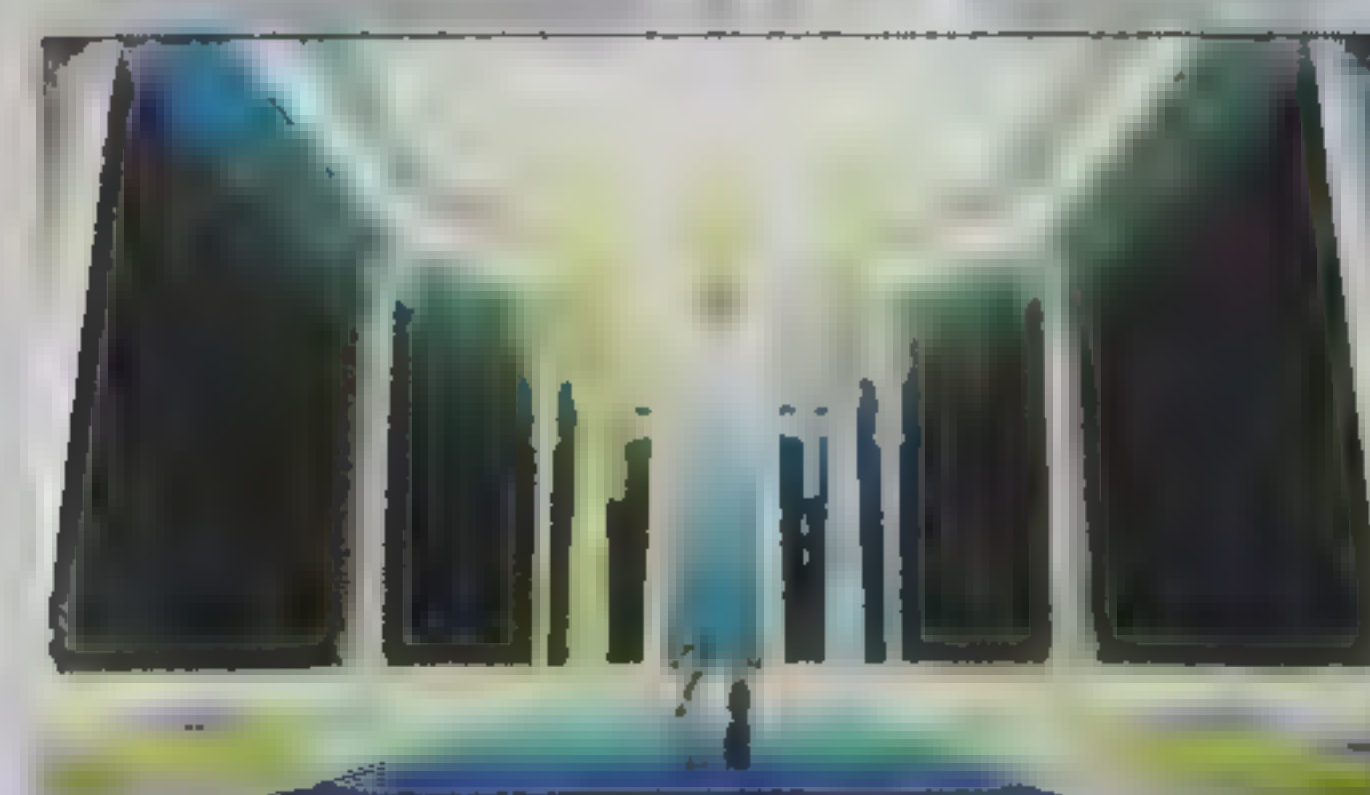

Based on the critically-acclaimed PS2 game Persona 3, the movie is about an orphaned high school boy named Makoto Yuki. A fresh transferee to Gekkoukan High School, he experiences "The Dark Hour", a mysterious and unexplained phenomenon that allows otherworldly beings called Shadows to become active and prey on human beings.

During the dark hour, when a giant Shadow threatens to attack Makoto's two dorm mates, he goes to their aid and awakens his Persona, powerful spiritual beings controlled and summoned by human beings. Because of this, he is recruited by a secret school organization named SEES, aiming to solve the mystery of the Dark Hour and destroy Shadows once and for all.

The art is just a visual treat. The characters and creatures are beautifully drawn and fluidly animated. Also, the backgrounds are full of vivid color despite the movie being mostly set at night, giving the movie a mysterious feel with a contrasting sense of awe-striking beauty and unique style.

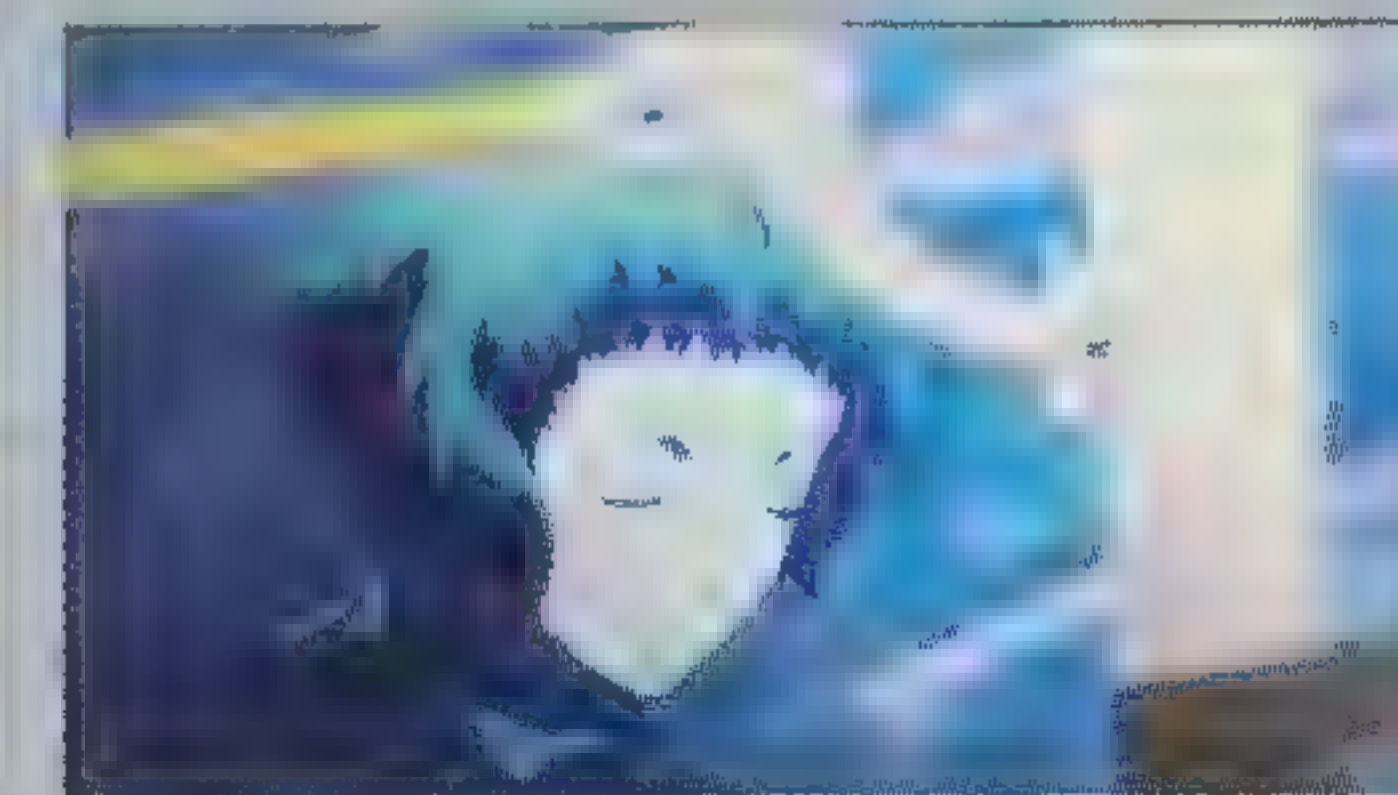

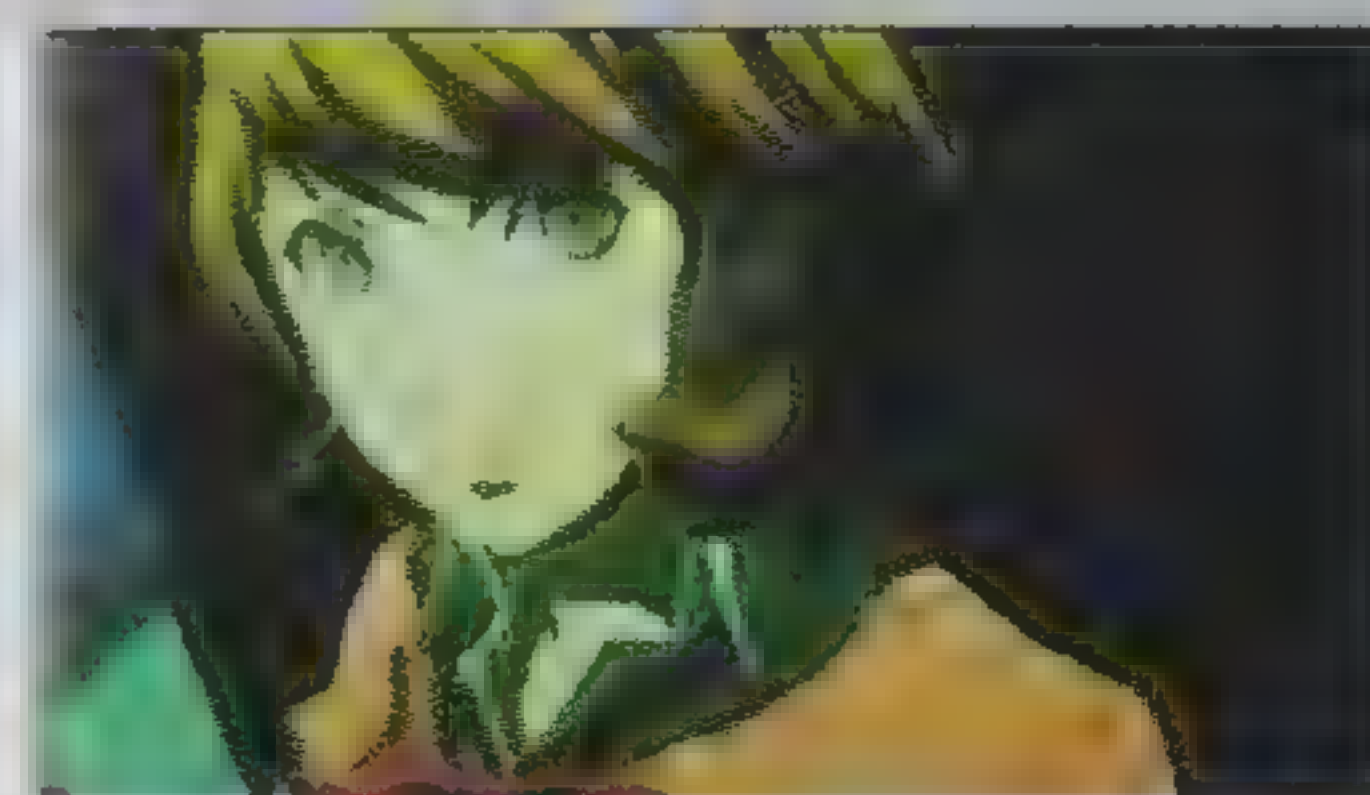

The music is also one of the movie's strong points. Being a combination of trancelike j-pop and hip-hop, it complements the movie's dark and surreally mesmerizing visuals. While it reused the game's soundtrack, it perfectly suits the movie, giving the fans of the game some nostalgic earworm.

Refusing to condense all of the game's events into about one hour and twenty minutes, it only covers the very beginning of the game, making it seem like there's not much going on aside from awesome battle scenes between Shadows and SEES along their personas. However, it does make a good foundation of the overall feel of the movie and its future installment, as well as the dynamic relationship between Makoto and the members of SEES.

Overall, the movie is a top-notch adaptation of a top-notch game. While more or less an ideal gateway for new fans of the franchise, its true target audience is the game's fanbase. With beautiful visuals and an equally beautiful musical scoring, stylish character design, and a simple plot set in an intricate reality, Persona 3: Spring of Birth is a mystical spring flower in the midst of winter.

# Samurai Flamenco

"A hero will never give up, never hide, never be defeated and never accept evil"

Every one of us wishes to be a hero and save the world, but being one is impossible. We don't have supernatural powers or advanced technology to achieve the ability to be a hero. But, a powerless young man with no advanced technology has a strong sense of justice. A model by day and a superhero by night, this young extraordinary man is Masayoshi who proclaims himself as "Samurai Flamenco"

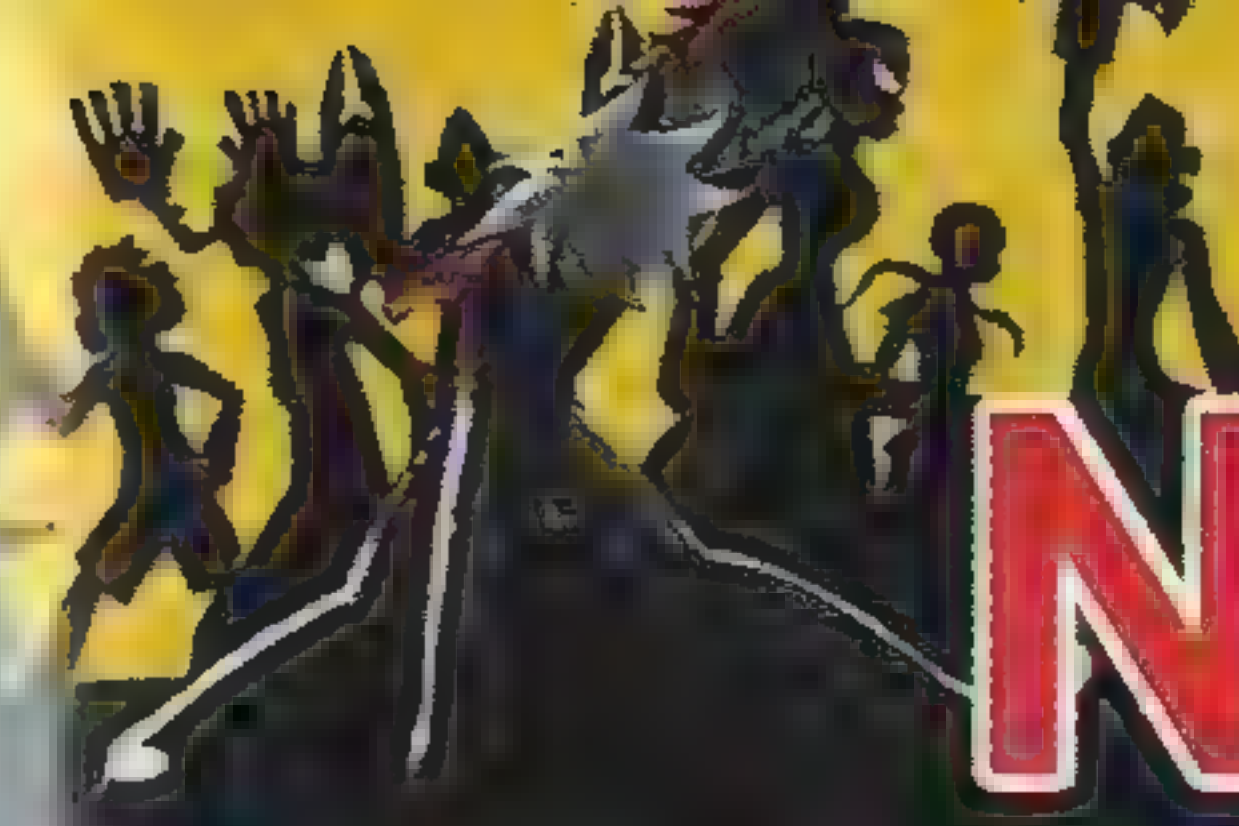

Officer Goto Hidenori is a normal policeman who is contented with his work, yet doesn't mind common misbehaviors of the society; such as the jaywalking, littering, middle school kids hanging around late. Until one night he meets a naked young man in a dark alley, claiming that he is a superhero. The name of the young man is **Hazama Masayoshi**, a model who lives in a prestigious apartment. Masayoshi was doing "rounds" at night dressed up as a superhero calling himself "**Samurai Flamenco**." He was inspired by his grandfathers' stories about heroes who fight evil. Hidenori realises his lack of effort to become a proper policeman through Masayoshi. After the meeting, he became busy and troublesome since he helps Samurai Flamenco every time he is in a tight situation bringing justice to everyone.

Samurai Flamenco is a superhero comedy-action directed by **Takahiro Omori** (Hell Girl, Durarara!!) and written by **Hideyuki Kurata** (Hellsing, The World God Only Knows). This anime is produced by Aniplex, FujiTV, Manglobe and Aniplex of America.

This is a story of a modern day superhero facing the daily misbehavior of the people in the society. It also shows the contrast and difference of a hero who has the sense of justice with a policeman who tends to do his job without meddling other peoples' affairs. Unlike other superhero themed anime with actual powers; it focuses on the aspect of doing a good deed and growing up.

Samurai Flamenco will definitely hook you with its pure laughter and the sense of awareness to follow the rules. Even a small disobedience can cause huge accidents.

# NOBUNAGUN

This New Year, a young girl will trigger the soul of Oda Nobunaga to wake up. The warlord, who once ruled over Japan, now becomes the great weapon who will protect humanity from the monstrous invaders!

**Shio Ogawa**, a high school student who is visiting Taiwan for a school tour where she is suddenly attacked by monsters called "**Evolved Invaders**". These agents wield an advance technological weapon infused with the great historical figures. Mahatma Gandhi, the Indian pacifist is now a barrier and the great scientist Isaac Newton is a gravitational maneuver. When Shio's friend is in danger, Shio's power awakens and wields a weapon just like the agents. Oda Nobunaga is Shio's weapon as a giant machine gun called **Nobunagun**.

Nobunagun is sci-fi, action anime that aired last **January 5**. Adapted from **Masato Hisa's** manga that began last 2011. The anime is produced by **Bridge and Earth Star Entertainment**. A rookie voice actress, **Shiori Muto** provides the voice of, Shio Ogura. **Tatsuhisa Suzuki** (Takao; Kuroko no Basket) will provide Adam Muirheads voice. **Nobunaga Shimazaki** (Haruka; Free!) will voice Mahesh Mirza and **Yu Asakawa** will voice Jess Beckham.

These historical figures versus monsters will surely bring you a brand new sci-fi action anime. Complete with school girls fighting beasts and saving humanity. This year will definitely start a new version of anime that you will look forward to. Watch this epic anime, **Nobunagun**!

# Sakura Trick

Sealed with a Kiss

Yuu Sonoda and Haruka Takayama attends a school that will close down in three years. They were inseparable during their middle school years, but fate played a trick on the two and got them on the opposite sides of the class upon entering high school, forcing them to spend time with their other classmates. But then they came up with something to maintain the special relationship they have.

The two shared a kiss to prove that their relationship is something more than just being friends.

Tachi's *Sakura Trick* is an on-going comedy 4koma manga serialized in *Manga Time Kirara Miracle!* since March 6, 2011. An anime version of the said manga will start airing on January 14, 2014 with Studio Deen and Pony Canyon as the producers. Voice actresses Yuka Iguchi and Haruka Tomatsu will star in the anime as Haruka Takayama and Yuu Sonoda respectively.

Unlike most slice of life shows featuring schoolgirls, *Sakura Trick* uses shoujo-ai as the theme of the manga—which explains why the main characters have to settle with kissing in order to deepen their relationship. But despite that majority of the cast are into girl-to-girl relationships, there are situations that will make you laugh or feel warm and fuzzy inside.

If you enjoyed watching *Yuyushiki*, *Yuru Yuri* or even *Love Lab*, then you should consider adding *Sakura Trick* on your to-watch list.

# ONE CHANGED BY FATE

Japan is no stranger to disasters or calamities, but what if the nature of such events are spiritual? Enter the modern onmyouji, masters of magic! Following the second world war, magic has been integrated into society, so much that actual schools and entire special forces have been built around its practitioners. Now, as a member of a renowned family of them, will you choose to accept your obligation as an heir, or deny it?

**Tokyo Ravens** follows **Harutora Tsuchimikado**, a not-so-proud member of the Tsuchimikado's branch family of **onmyoujis** or **shamans**. Despite Harutora's lack of supernatural powers, he is fully satisfied in living an ordinary life along with his friends. His ordinary life came to an eventful turn after he was reunited with his estranged cousin, **Natsume Tsuchimikado**. Holding on to a childhood promise to protect Natsume, Harutora soon finds his world turned upside down as he gets thrust into the world of the supernatural.

**Tokyo Ravens** is a Fall 2013 anime being handled by the studio 8-bit. It is an adaptation of the light novel written by Kohei Azano (*Black Blood Brothers*) and illustrated by Sumihei. Ten volumes of the light novel have been published so far, with the tenth one being released last October. As if that isn't enough, the series also has a manga adaptation illustrated by Atsushi Suzumi.

While there is an abundance of supernatural shows revolving around onmyouji and spirits, **Tokyo Ravens** definitely contains a unique appeal. It manages to bring out the best in both eras of history. Showcasing the mysticism of traditional Japanese culture and its ties to the supernatural, the anime successfully blends these elements with a futuristic flavor. The Tsuchimikados, genki girl Hokuto, former delinquent Touji, and the crazy-yet-talented Suzuka Dairenji form an entertaining ensemble to watch.

Background art in the show is top-notch, and the mechanized designs for several of the shikigami only add to the modern feel of the show. Of course, what is an anime without epic songs that make you sing-along and avoid skipping the opening?

"X-Encounter" by Maon Kurosaki provides just that. These make the show a great display of production which will surely not disappoint any audience.

## CHARACTERS

**HARUTORA TSUCHIMIKADO**

The main character of the story. Even if he is a member of the Tsuchimikado family of onmyouji, he lacks any magical powers. Also not being good in studies, he decided to just live a relaxed life. Nonetheless, one thing that sticks to him is his childhood promise to protect Natsume.

**NATSUME TSUCHIMIKADO**

Harutora's cousin who belongs to the main Tsuchimikado house. Natsume is a skilled onmyouji and is said to be the reincarnation of Yakou Tsuchimikado. It was her appearance that served as the trigger that changed Harutora's life.

**HOKUTO**

Hokuto is one of Harutora's friends, along with Touji. Not only does she have cute looks, but also a strong persistence that comes along with it. She spends most of her time trying to convince Harutora, whom she fondly calls "Bakatora", to become an onmyouji.

Putting it all together, **Tokyo Ravens** is no doubt a visually-appealing anime, but it doesn't stop there. It is also an intriguing show with its take on the classic supernatural anime genre. Complete with dramatic twists and captivating spiritual battles, this show is definitely recommended for any fans of the similar genre.

### YAYA OF THE MOON

Yaya is Raishin's automaton that was assembled by **Shouko**. She is the 2nd of the **Setsugetsuka Trilogy** or the **Sun, Moon, Flower Trilogy** that is considered as **Shoukou** masterpiece. Yaya is also a **Ban-doll** that is made up of not only mechanical but also organic components. Yaya acts as human like as possible and loves to think that she is Raishin's wife which always places Raishin in unbelievable predicaments.

### CHARLOTTE BELEW

Accompanied by **Sigmund**, a dragon automaton, she aspires to become a **Wiseman** in order to restore her defamed family and would do anything to achieve her goal, until she met Raishin.

**Unbreakable Machine-Doll** is definitely an outstanding anime with a great storyline and back story that correlates the relationship of a human and an artificial being. It is highly recommended specially to those who have read the novels and deemed it interesting. What is also noticeable in the show is its animation, though it does deviate from the art and character designs of the original illustrations, it still doesn't cease to amaze viewers with its beautiful animation coupled with CGs that make flashy battle scenes.

# Masamune kun no revenge

written by: Kei

Released: 2012

Author: Takeoka Hazuki

Artist: Tiv

Genres: Comedy, Harem, Romance, School Life, Shounen

When something bad happens to you and it's someone's fault, it's natural that you'd want to get even.

Makabe Masamune is a transfer student who instantly became popular with the girls because of his good looks, athletic and academic ability. But this is merely a facade he needs to maintain in order to carry out his goal—to exact revenge on Aki Adagaki. Unknown to everyone in school, the handsome Makabe used to be a chubby kid people liked to bully. Aki's brutal rejection made him work hard to become what he is now.

As if lady luck smiled on him, Makabe gets to meet the target of his revenge on the very first day after transferring in. With his new appearance, Makabe decided that making Aki fall in-love with him and then reject her in the most humiliating way possible suits her perfectly.

However, his quest for retribution wasn't as easy as he thought it would be...

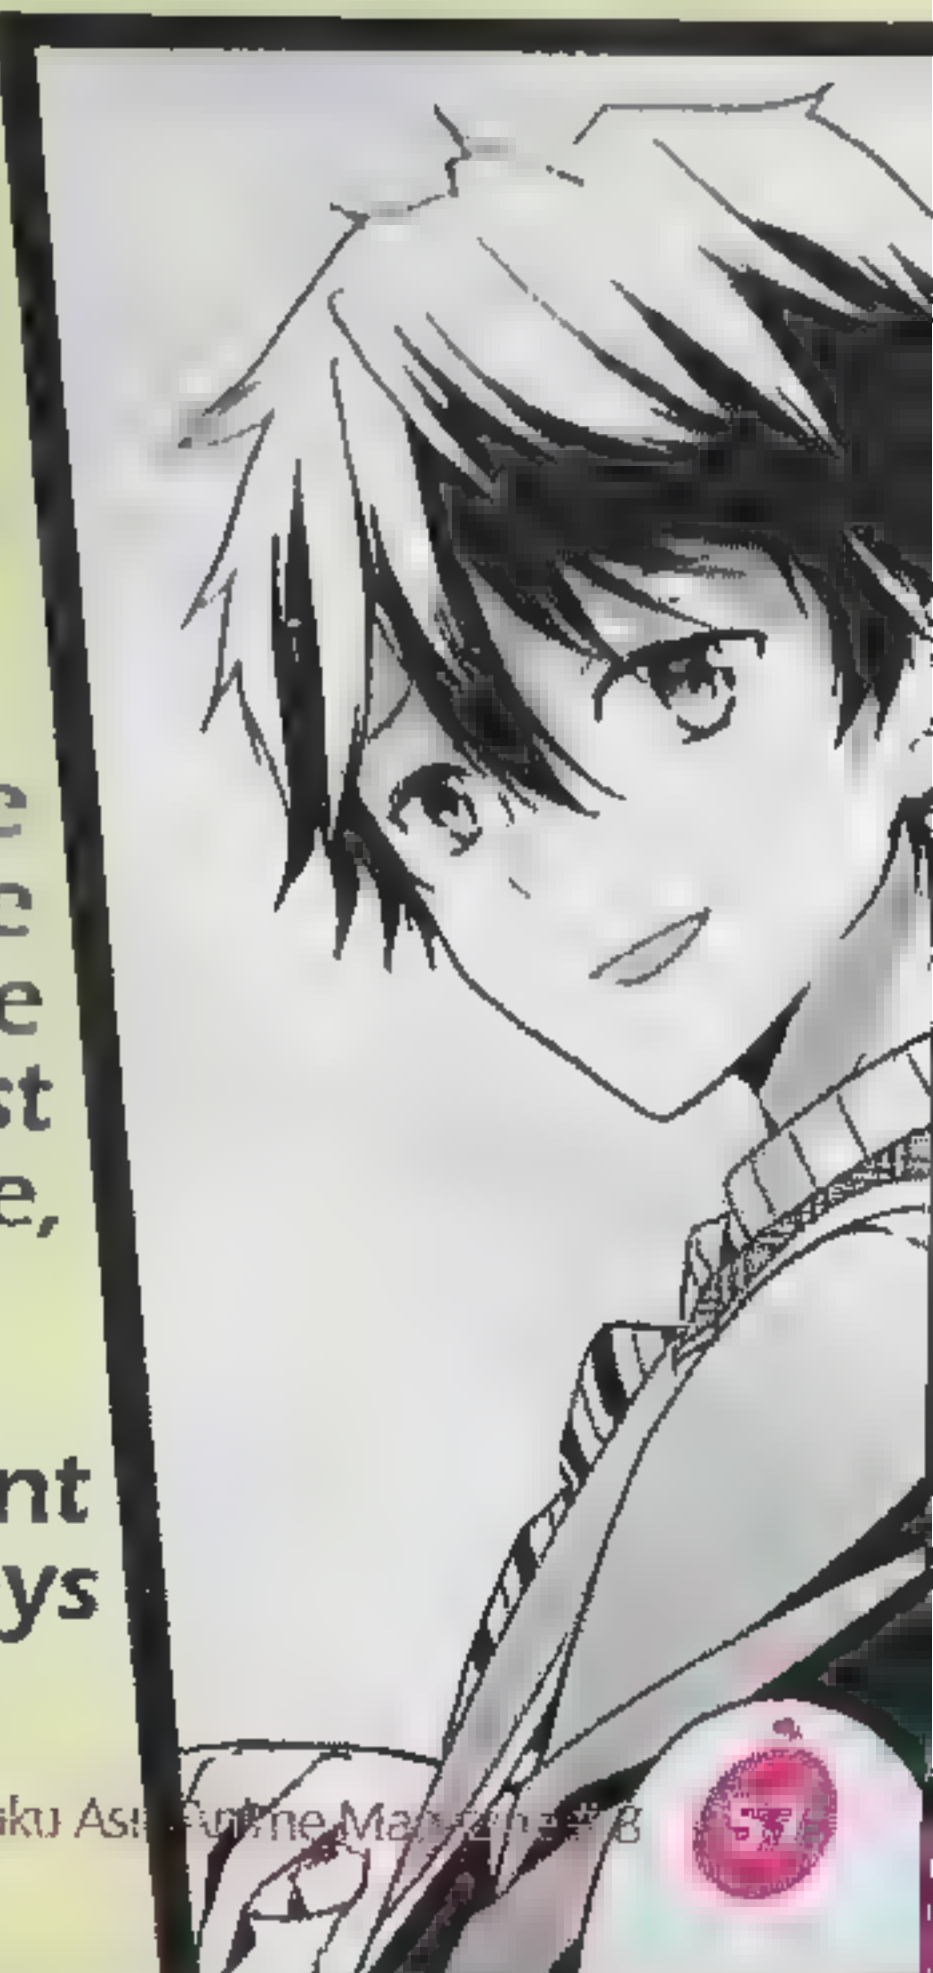

Written by Hazuki Takeoka with Tiv as the illustrator, Masamune-kun no Revenge is an on-going romance manga serialized in Comic Rex since October 2012.

Although his reason is a bit shallow, one can only admire Makabe's dedication as he is able to change himself for the sake of revenge. The manga's art definitely captivates the reader due to it making the characters attractive and appealing to the eyes, but that's not all Masamune-kun no Revenge has to offer. It's also interesting to see the cast having unexpected character traits that betray their appearances such as Makabe's naivete for using a shoujo manga to get situational references and Aki's monstrous appetite. The manga heavily implies that "looks can be deceiving".

It's a shame that it takes a month or two for a new chapter to come out, despite that, the story is maintaining a good pace and the development between the characters can be seen in every chapter. Since it is a romance manga, a group of girls who sees Makabe as a love interest will appear which might jeopardize his revenge plan. But at the same time, Aki is starting to become aware of her feelings towards Makabe.

Masamune-kun no Revenge is a must-read for those who want something different for a romance manga. They say that revenge is always bitter, but this manga will show you the sweetest revenge ever made.

UCHUSENTAI:NOIZ is close to the hearts of their Filipino fans who call themselves "Space Babies". The band spearheaded the presence of Visual-kei artists in the Filipino music industry. The first event in the Philippines where they performed was at the Mindanao Cosplay Summit 2011 held at SM Davao. While other fans complain about how difficult it is to reach out to famous J-music artists and make them visit the Philippines, UCHUSENTAI:NOIZ begs to differ. The cosplay rock band has visited the country several times without any interruption, earning much support from Filipinos. Since then, they have been invited to participate in several anime conventions and music festivals in the country. The rock band grew more famous in the Philippines for their own version of Kamikazee's Narda coupled with a promotional video back in 2012. It gained mostly positive comments from fans of local rock bands and J-rock alike.

Apart from having close ties with the Philippines, UCHUSENTAI:NOIZ is also known for their compassion with victims of calamities. The band helped in charity events for the victims of the 2011 Earthquake and Tsunami disaster in Japan. Even the Philippines had its share of a catastrophic blow in 2013 when Typhoon Haiyan (Local Name: Yolanda) devastated some places in the Visayas region. They set up charity boxes and merchandise booths in each concert they had in different countries, encouraging their fans to donate to the victims.

With their efforts to be distinguished from other Visual-kei artists in Japan, UCHUSENTAI:NOIZ grabs the attention of more J-rock buffs, and will definitely continue to do so in the years to come.

# WHICH FAIRYTAIL GUILD DO YOU BELONG?

In Kingdom Fiore, there is a type of organization called "guild". There are three types of guilds. These are the legal, independent and dark. Each guild is composed of different kind and types of mages. Some of them are mischievous while some are peaceful. Guilds are made for 2 main reasons: to take jobs in order to have jewels and to hone their magic and skills. Let's find out what guild where you want to be.

## FAIRYTAIL

Fairy Tail is one of the legal guilds and is currently the strongest guild in the kingdom of Fiore. The Guild is located at the southern coast in a town called Magnolia. It is led by Makarov Dreyar and has 4 S-class mages. They are Gildarts Clive, Laxus Dreyar, Erza Scarlet and Mirajane Strauss. Although being the strongest of all the guilds; they are disliked by the council due to many of their members are being destructive.

Joining Fairy Tail isn't that hard. You just need the approval of the guild master, regardless of your history, whether you came from another /enemy guild. or the current member/s dislikes you for a particular reason. 2 events are held and celebrated every year by the guild. These are the S-Class Mage Promotion Trial and Fantasia. The S-Class Mage Promotion Trial is an event where mage members of Fairy Tail can advance into being an S-class mage though only selected members can only compete. Fantasia is an event where all members will have a performance in displaying their magic to the people of Magnolia.

## SABERTOOTH

Sabertooth is one of the legal guilds and formerly the strongest guild in the Kingdom of Fiore under the rule of former guild master Jiemma. Unlike in Fairy Tail, Sabertooth is more strict, especially when members did an action that stained the guild's name. That member will be excommunicated from the guild. Its current led by Sting Eucliffe. The guild has currently five elite mages namely Sting Eucliffe, Rogue Cheney, Rufus Lore, Orga Nanagear and Minerva Orlando.

Joining Sabertooth has standards. you need to be good in using your magic and skills; as well as you need to be a good fighter. That is the reason why they have only a few members.

## CRIME SORCIERE

Crime Sorciere is an independent guild which has no stable location. Independent guilds are not recognized by the magic council and at the same time they are not marked as criminal organization. Crime Sociere's main goal is to destroy and remove all the evil things that the dark guilds have caused. They also aim to defeat Zeref, the most powerful dark mage of all time.

## LAMIA SCALE

Lamia Scale is also one of the legal guilds and is currently the 2nd strongest guild in Fiore. The guild's exact location is unknown and it is lead by Ooba Babasaama. They always got 2nd place in the Grand Magic Games for several years. The Grand Magic Games is an annual tournament to determine the strongest guild in Fiore.

They are also known to ally with Fairytail, Blue Pegasus, and Cait Shelter in defeating Oración Seis, one of the dark guilds.

## BLUE PEGASUS

Blue Pegasus is also one of the legal guilds and is also dubbed as one of the strongest guilds in Fiore. Its exact location is unknown and and it is led by Bob. Most of its members female and attractive and fashionable that makes them icons throughout Fiore. One of its members: Karen Lilica was the cover magazine of the Sorcerer Magazine in the year X781. Jenny Realight: another member of the guild was hailed as Ms. Fiore in the year X791.

They are also known to ally with Fairytail, Cait Shelter and Lamia scale in defeating Oracion Seis.

## GRIMORE HEART

Grimore Heart is one of the top three dark guilds, and is considered the most powerful among them. The guild's name came from the work "devil's heart" which is the magic source of the guild master's power. The guild doesn't have a stable location; their base is an airship that always travels. The guilds' goal is to collect all the keys that will unlock Zeref's seal and to locate all the black wizards. If these things are aimed, they plan to conquer and rule the world called the Ultimate Magic World.

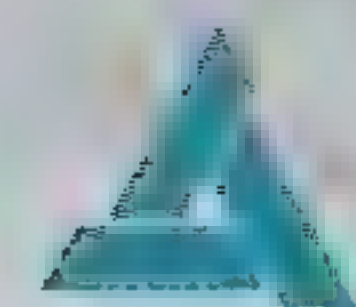

So, have you chosen what guild so you want to join? Each guild has different types of nature and goals. Some are just being good guys, some wants fame and some wants to put chaos into our world. What is your goal? Does it match in one of the guilds stated above?

Assassin's Creed: Liberation HD that is set for release in early 2014 is guaranteed to provide the same if not better experience as Liberation. The game will be reworked and re-tweaked to further utilize the console's capabilities so that players could get the most experience out of Liberation in High Definition. The upcoming HD version also features 15 new missions that will introduce new challenges for players. The HD port is also the first game of the franchise that was originally released as an exclusive and is then ported to other consoles.

Overall, Assassin's Creed Liberation doesn't fail to amaze those who crave stealth action games especially those avid fans of the Assassin's Creed franchise. Those who do not possess a Vita would surely be left at their wit's end while awaiting its release for other consoles.

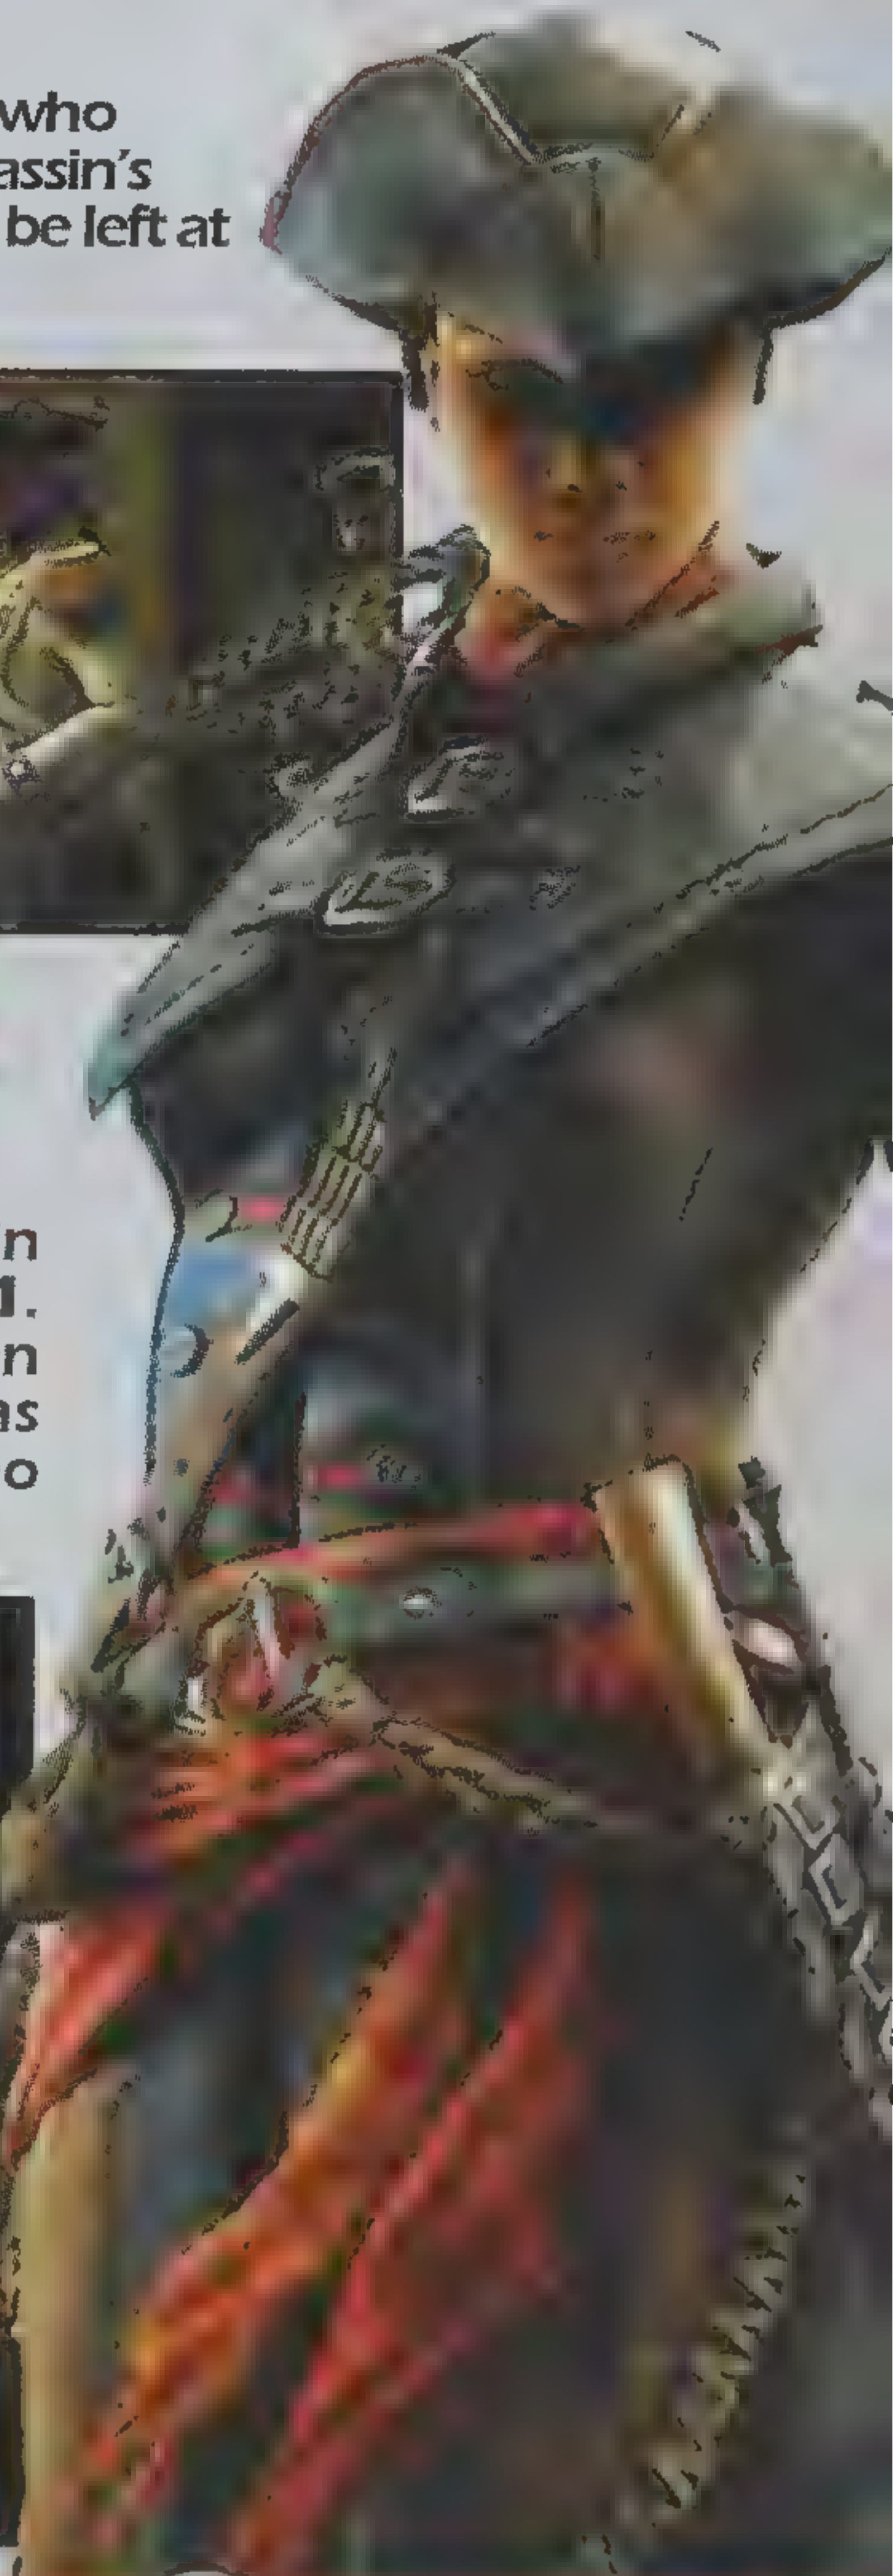

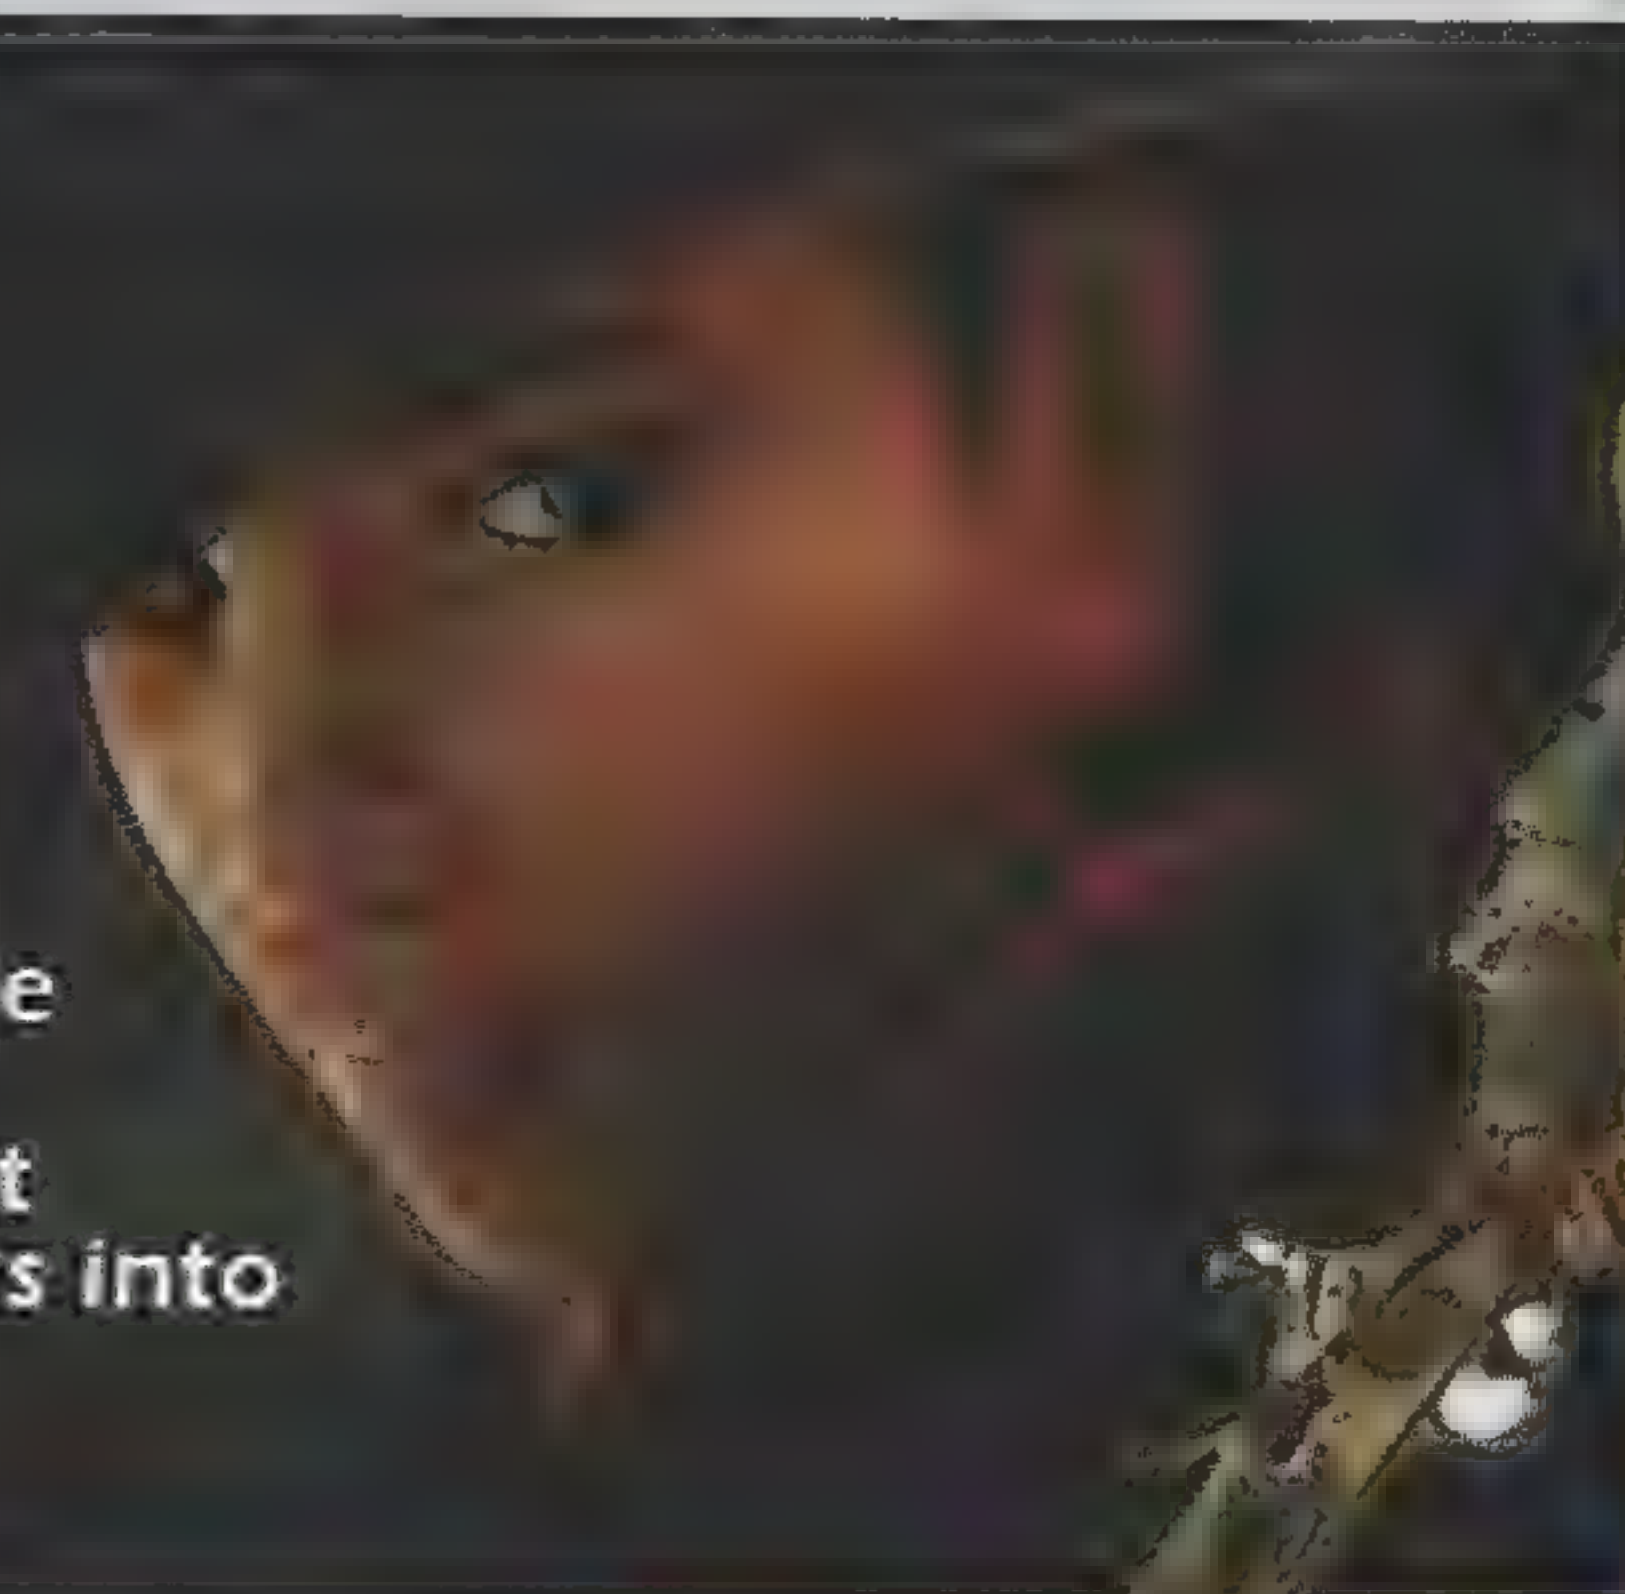

## PLAYABLE CHARACTER

### Aveline de Grandpré

Aveline, the game's female protagonist, was an Assassin who lived in New Orleans and is descendant of Subject 1. Her parents were a wealthy French merchant and an African slave. Due to certain circumstances, Aveline was rescued by Agaté, Aveline's mentor and the Assassin who took her in and introduced her to the Brotherhood.

Aveline is the very first female lead within the Assassin's Creed franchise. This certainly is not a disadvantage to the game, as her struggle provides a very interesting twist that would absorb players into the game's pace.

Mankind was suddenly attacked by invading monsters from the dimensional gates that opened all over the planet. Each country sent their military forces to defend their home against the wave of invaders, but their weapons and tactics had no effect on them. The monsters mercilessly destroyed one city after another as they proved that humans are no match for them. Fortunately, these dimensional gates also turned out to be their last ray of hope.

A small fraction of humans can finally use ESP as a side effect to the gate's sudden appearance. With these warriors, they were able to turn the tide of war in their favor. After the tragedy that happened, the people of earth were able to close the dimensional gates. The invasion of the dimensional monsters was named as the "First Dimensional War" and the brave psychic warriors who drove them out of Earth are referred to as "Closers".

By the time peace returned to the world and the ravaged cities were rebuilt, an organization called **UNION** was formed in-order to research the psychokinetic power with the hopes of preventing another dimensional war from breaking out. But then the dimensional gates around the world started acting up again—with an army of powerful dimensional monsters continue their invasion on Earth.

Be a part of the Black Lambs now and protect New Seoul from the invaders in this high speed action fighting RPG: **CLOSERS Online**.

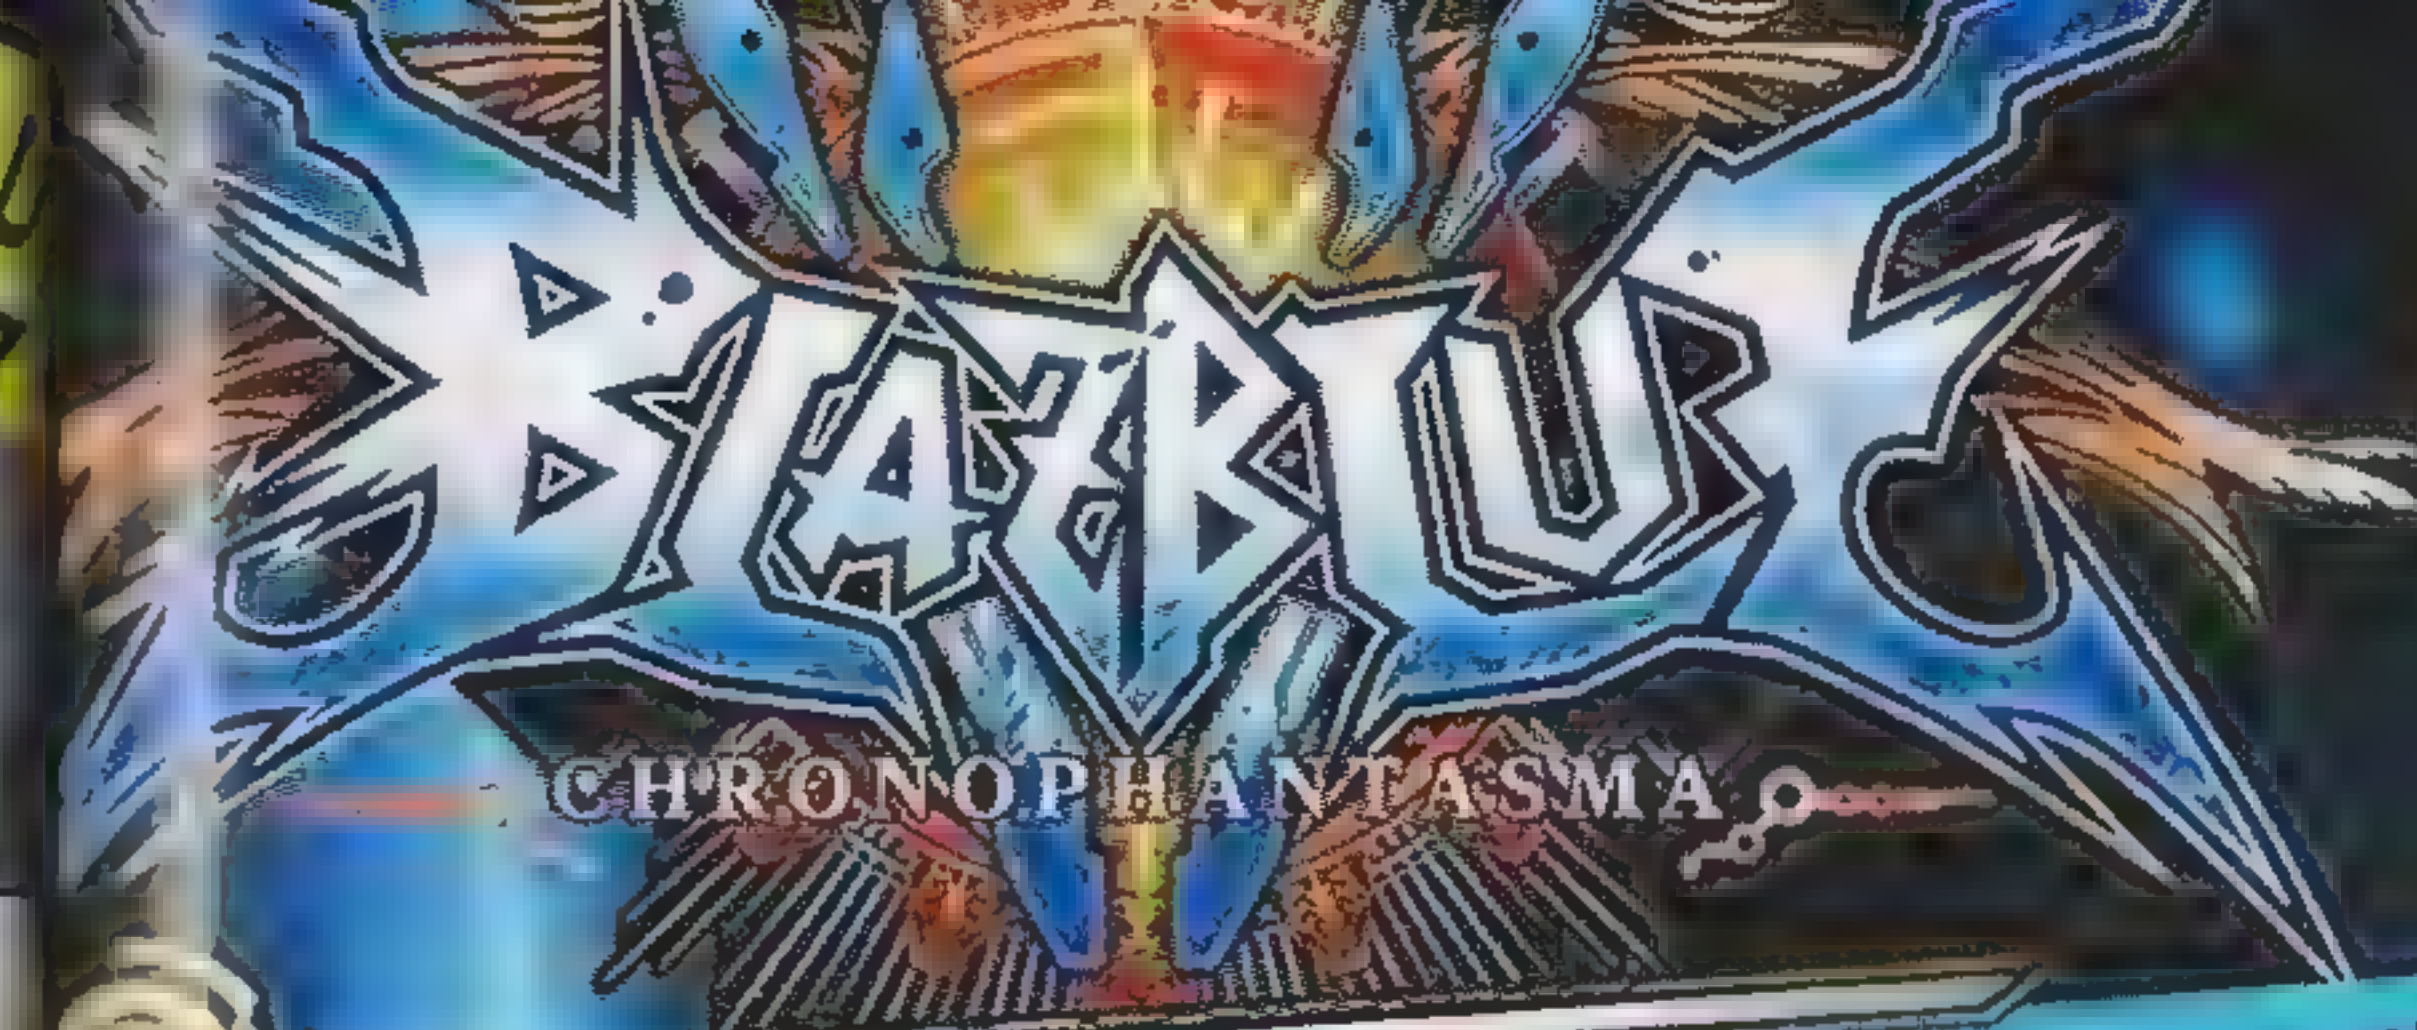

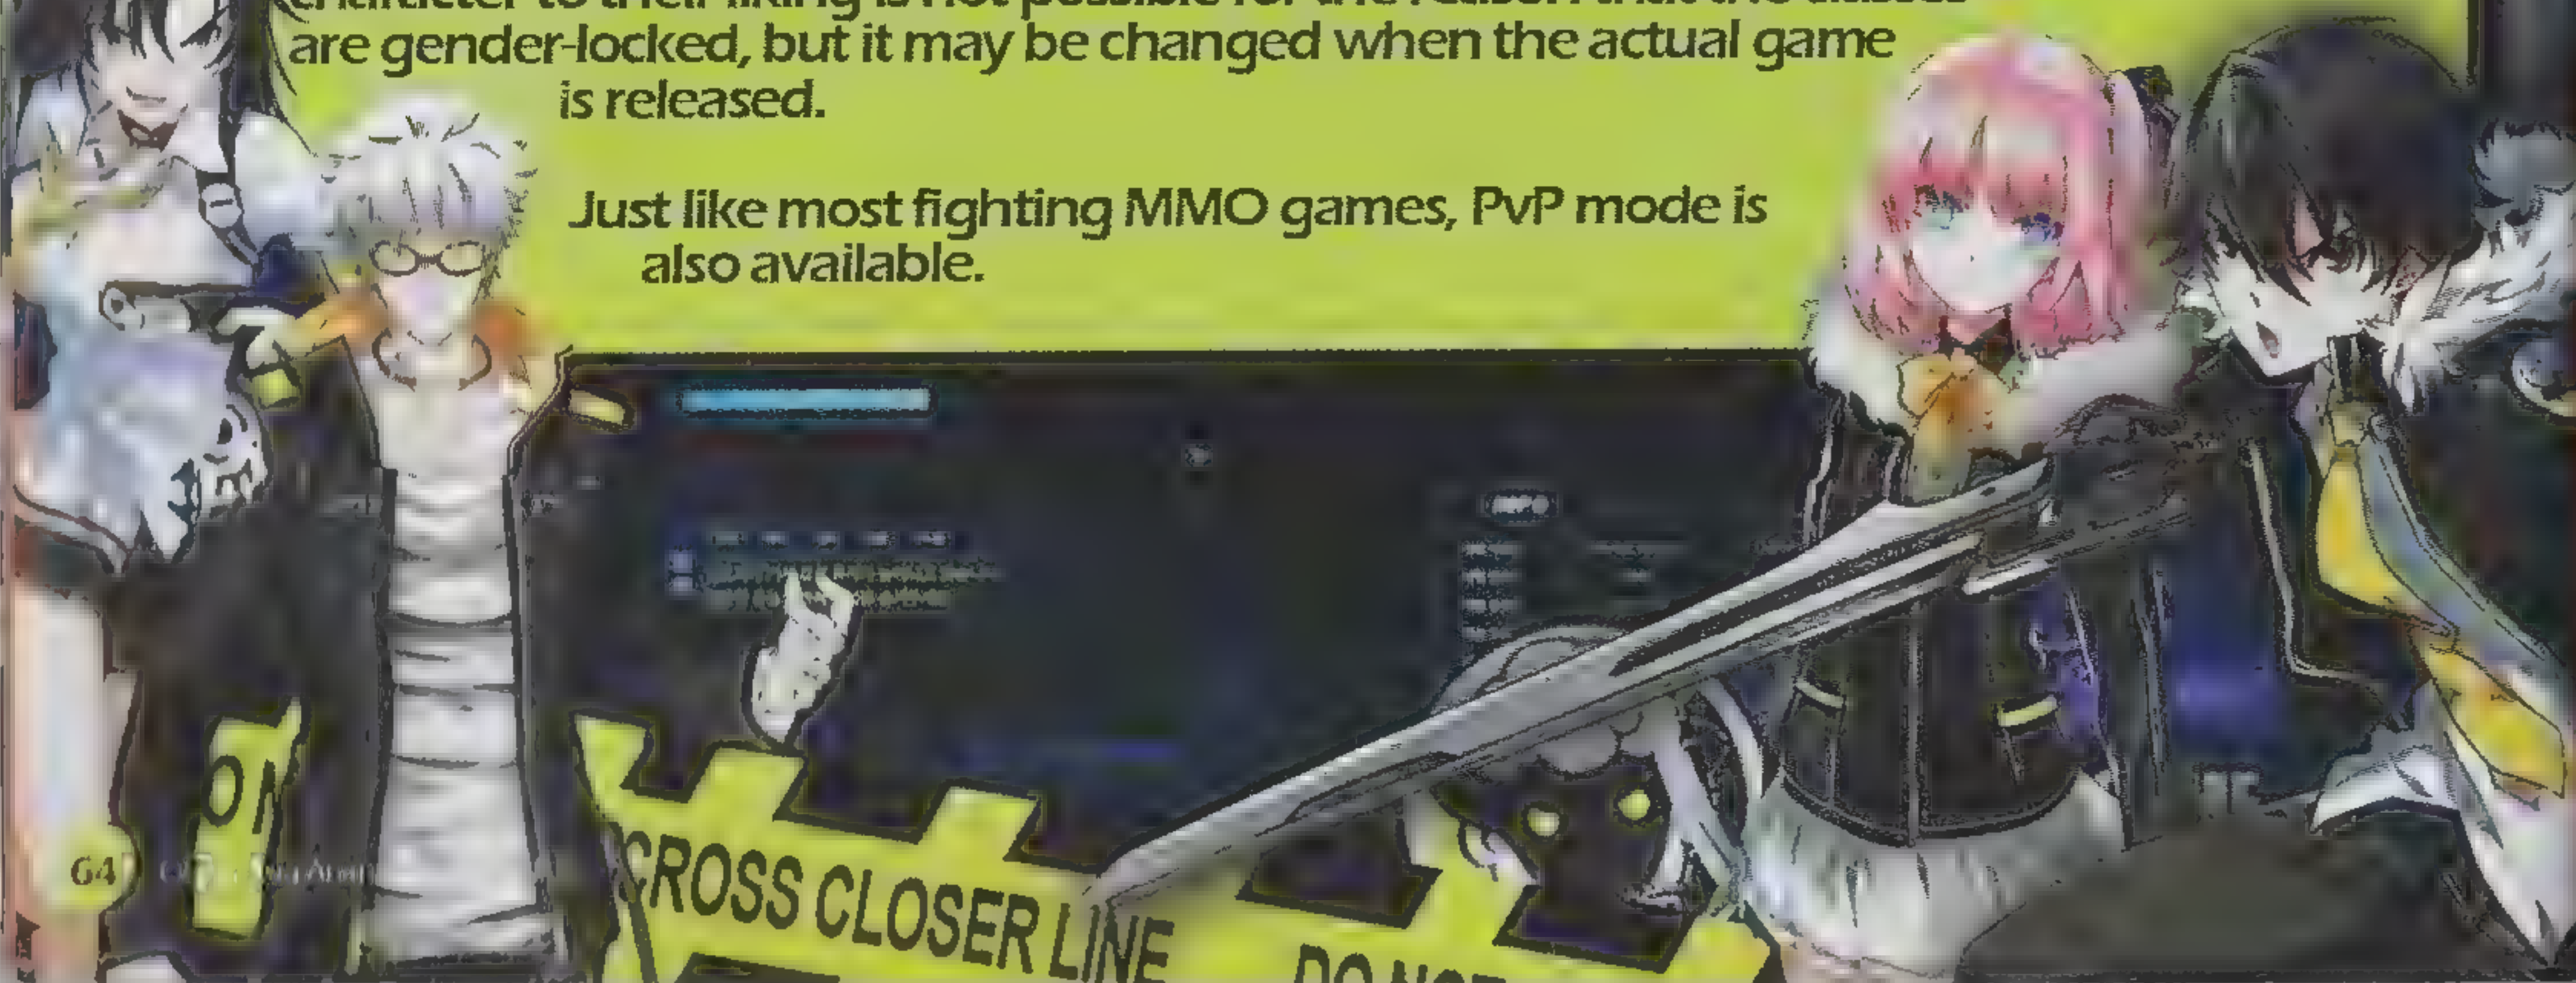

**CLOSERS** is an upcoming sci-fi fighting MMORPG developed by the **NADDIC Games**. The game's teaser website can be viewed in Korean, Japanese and English, hinting that it might have a Japanese server as well as a North American or a South-East Asian server in the future.

## FRUITLOOP-CHAN ARTIST.MANGAKA

We've always admired the people who illustrate the manga we read. From the way the characters eyes are drawn to the way the clothes are sketched, it never fails to amaze us. Practically, the artist's style is something every manga reader looks forward to, aside from the main story plot. Inevitably, there are times when no matter how invested you are in a story, if the art doesn't interest you, the choice between whether to continue reading it or not is a no-brainer.

And in drawing a la manga, Aimee Manuel is no stranger; in fact she draws like a pro. Aimee, who also uses the name 'Fruitloop-chan' but mostly known as Arme-chan, is an artist from Cotabato City who has done quite a lot of works herself. These include mangas, original artwork and fanart. These has gotten her into a some fans from around the world.

Some of her notable works include "Demon March." Demon March is about Rion Winters, your typical wimpy kid trying to survive his school life. One day, Rion got kidnapped by a cult that worships the god 'Ragnarok', and decided to make him a sacrifice. His best friend Xen tried to save him but all to no avail. When he woke up, he found out he was in hell, and met a demon named Reno. This manga has been revamped and improved.

Fruitloop also did a one-shot titled "Crow's Academy." It is about a school for children who have superpowers. It's only 4 pages but it's enough to love her for it. Arme sent this to Komikon 2013 as a contest entry.

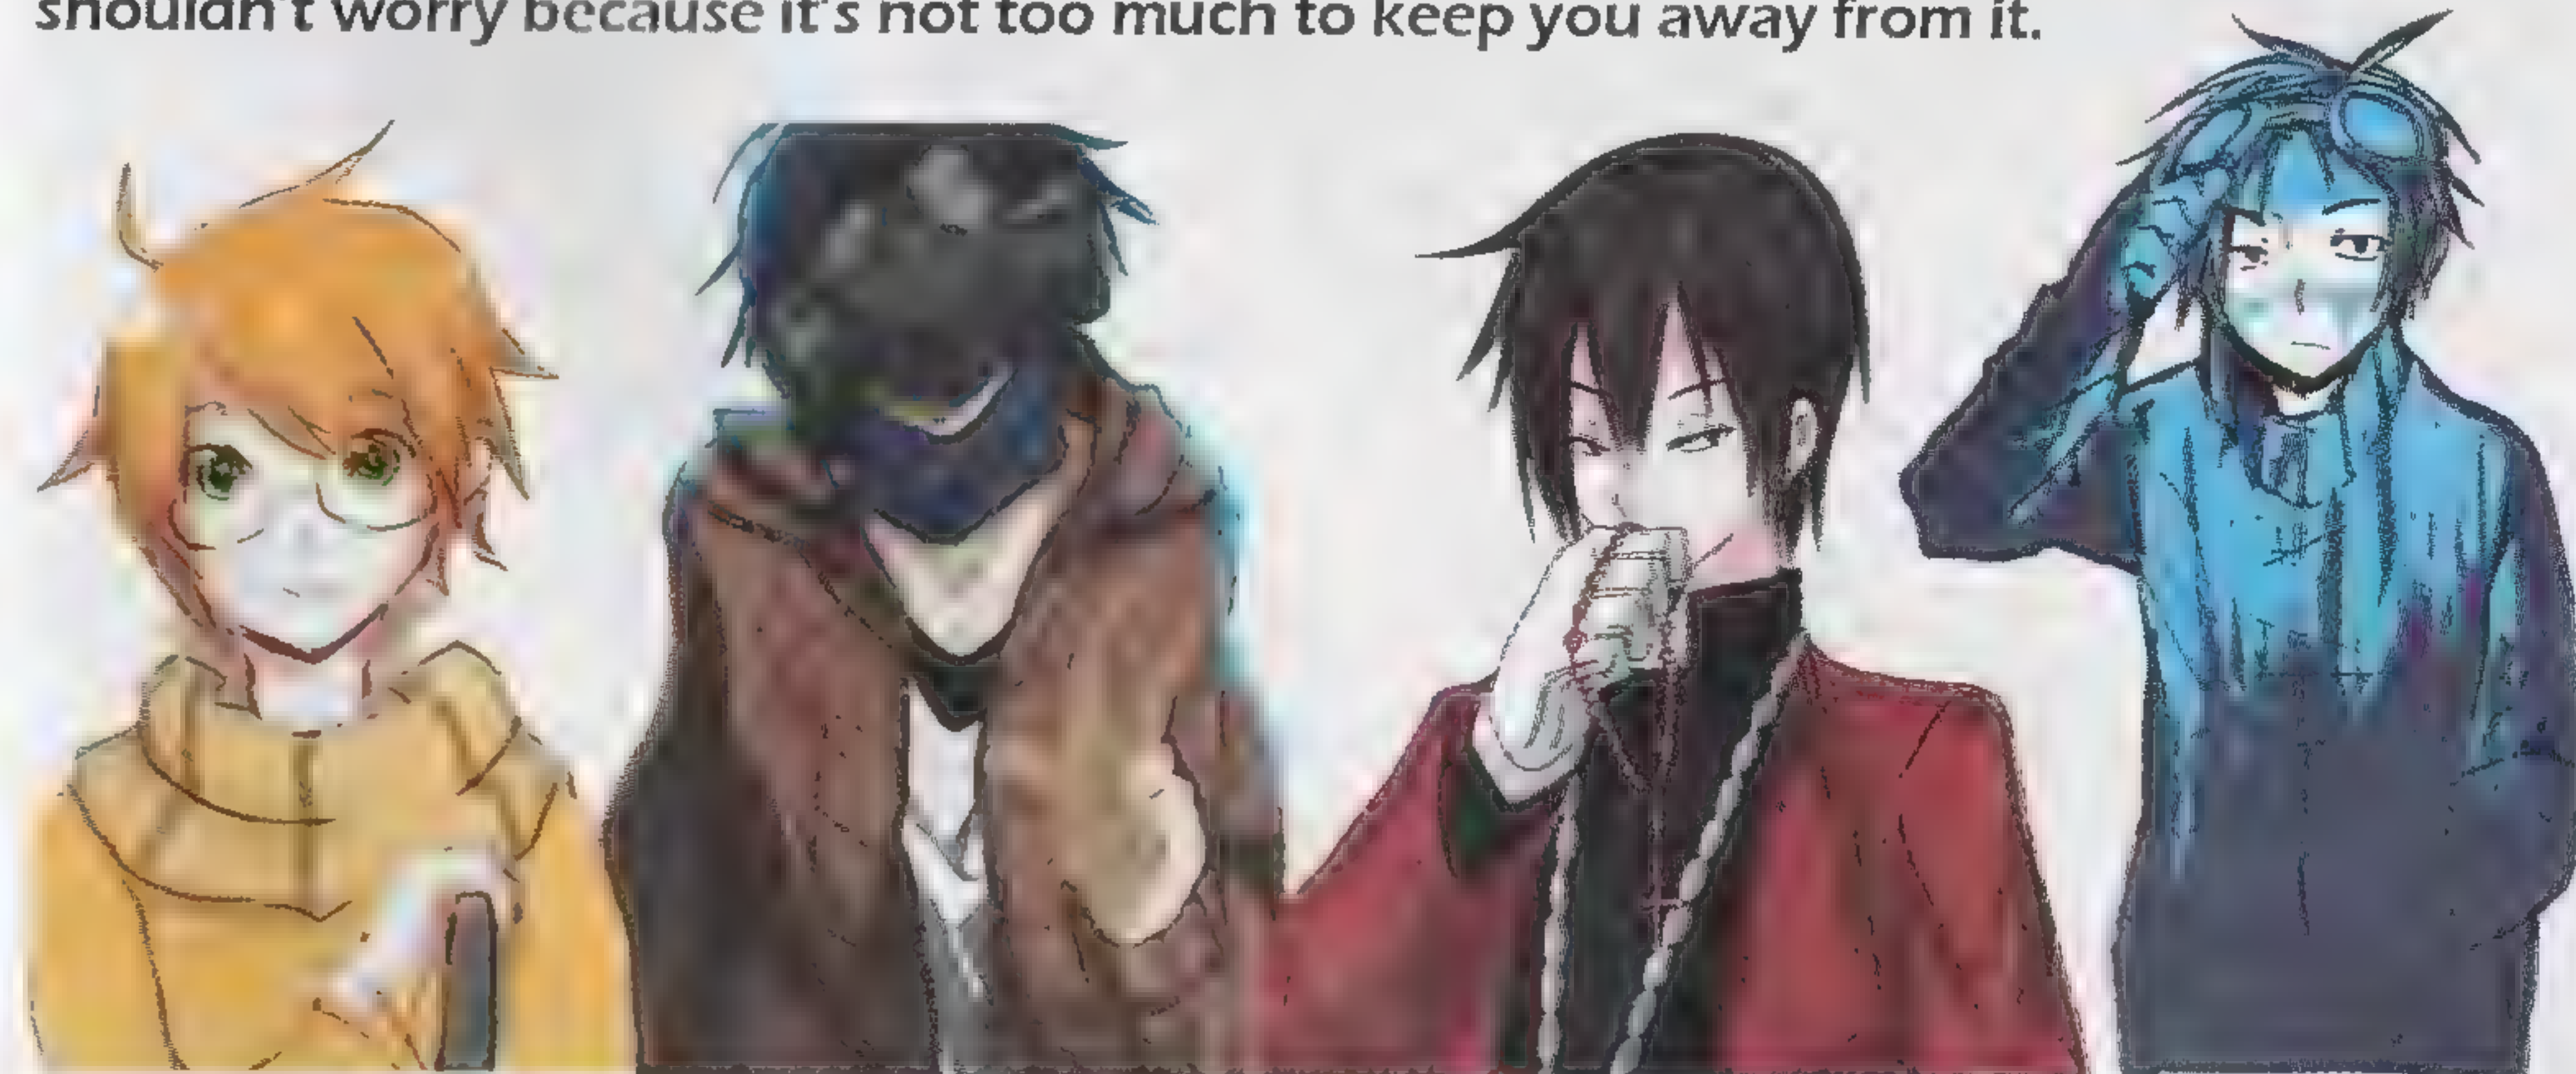

SHE  
DID  
NOT  
WIN

BUT SHE  
DID NOT  
GIVE UP!

"Knife Brigade" Is about Erick Knife II, the son of the owner of the agency called 'KNIFE Brigade'. KNIFE Brigade's job is to kill every single escaped and wanted criminal. But all Erick wanted was to open a coffee shop and lead a normal life, away from his father's influences, and this is where the conflict comes as Erick's father wants him to follow his steps and inherit their business. The manga contains gore, and readers who love gore will definitely enjoy it. If you're someone who doesn't prefer violence, you shouldn't worry because it's not too much to keep you away from it.

People should give Fruitloop-chan's works a try because it's deserving of attention.

# THE HOBBIT

THE DESOLATION OF SMAUG

Bilbo Baggins is miles away from home sweet home to help twelve dwarves find theirs.

The movie trilogy that started last year is on its second installment entitled *The Hobbit: The Desolation of Smaug*.

Smaug is a red dragon who took the treasures and homeland of the Durin's Folk of Erebor. Forcing its citizens to flee, the dragon slept for years and years. Dwarves can live for a very long time and some of them can still remember the events that led them in exile.

One of these dwarves is their King, Thorin Oakenshield. Determined to get his father's kingdom back, he sought the help of Gandalf and a little hobbit burglar, Bilbo Baggins.

Bilbo regarded himself as an ordinary hobbit of the Shire: traditional and simple. After hearing the quest to take back Erebor, he unexpectedly went out for an adventure.

After a few scratches and wrong turns, the group found themselves inside a giant sized house, walking in circles inside a sick forest and almost became the lunch of huge spiders.

Saved and imprisoned by the elves of Mirkwood, the dwarves become helpless. So does the audience because we once again see Legolas!

Prince of the Woodland Realm, a younger Legolas shares his father's hate of dwarves and their greed. There is, however, Tauriel. She's the commander of the guards alongside Legolas. While the dwarves were behind bars, Kili befriended the she-elf and even developed feelings! EEEee~

After a few barrel rolling and a few running around, the team made it to Lonely Mountain.

Where Smaug expects them.

While the book and the movie may have a lot of differences, you'll still be very entertained following the adventure of Bilbo Baggins.

As a trivia, some facts from other J.R.R. Tolkien's books are also in the movie. Director – extended one book into three movies so he could add all these facts.

# THE HUNGER GAMES: CATCHING FIRE

She's just a girl and she's on fire. And she's back. This time around, she's not only shooting arrows – she's sparking a rebellion. Watch District 12's latest lady victor as she stirs up all of Panem in the second installment of Suzanne Collins's best-selling *Hunger Games* series *Catching Fire*.

After their "lover's suicide" publicity stunt in the 74th *Hunger Games*, Katniss Everdeen and Peeta Mellark are forced by President Snow to prove that what they did is an act of love and not an act of defiance. Because people in the different districts see it as the latter, and have already made her a symbol of the upcoming rebellion – the Mockingjay. Alarmed by how things are turning out, President Snow and Head Gamesmaker Plutarch Heavensbee decided that as a display of the Capitol's power over the victors, the tributes for the 75th *Hunger Games* will be reaped from the existing pool of victors. Once again, Katniss and Peeta must fight and survive. And this time, with the other competitors being seasoned veterans, the odds are not in the girl on fire's favor.

Despite being a sequel, it heavily improves on what the *Hunger Games* initially laid out, as it shows more of Panem: the districts and its people, the victors and their stories, the Capitol and its decadence. While it may not be exactly as grand of a scale the readers have imagined it to be, it nonetheless does what it intends to do beautifully. And of course, the games. This time, thanks to the shaky cam no longer there, it's much easier to understand what is happening and who's killing who in the beautiful and lush arena.

Everyone in the cast is brilliant, as expected from a long list of Hollywood A-listers. Jennifer Lawrence shows that she didn't return to play as Katniss Everdeen, for she already has become Katniss Everdeen, same goes with Josh Hutcherson as Peeta, Woody Harrelson as Haymitch, and last but definitely not least – Elizabeth Banks as Effie Trinket. As for the newcomers, most praiseworthy ones are Jenna Malone as the wild Johanna Mason and Sam Claflin as Finnick Odair.

All in all, *Catching Fire* is an awesome follow-up to the *Hunger Games*. An impressive envisioning of the second novel, this movie definitely lives up to the burning hype it has been given.

#THROWBACK

# NOW AND THEN, HERE AND THERE

by James

A boy is transported into a mysterious other world, meets a girl, saves the day, and everybody is happy in the end – A pretty common theme in anime. However, don't expect such butterflies and rainbows in *Now and Then, Here and There*.

The story is about an ordinary, carefree, happy-go-lucky boy named Shuzo "Shu" Matsutani. One afternoon, as he was strolling around town, he found a quiet blue-haired girl sitting on top a factory smokestack. He climbed up on one as well and chatted with her under the beautiful sunset. Her name is Lala-Ru. Suddenly, it seems as if time stopped – the river stopped flowing, birds froze midair and the sun did not set. Out of nowhere, two mechanical serpents loomed over them and a robot grabs Lala-Ru. Shu then springs into action in a desperate attempt to save her. In a world with robots, child soldiers, and a giant red sun, what is going to happen to Shu and Lala-Ru next?

The show was released back in 1999. The art is simple, unique and illustrates very well the dystopian post-apocalyptic setting. The music, on the other hand, perfectly complements the melancholic atmosphere, with every sad note tugging on your heartstrings.

Unlike other anime that involves the hero being transported to another world, this one neither bestows any special power or ability to him, nor is he able to make the other characters see things his way. Instead, he is subject to a harsh reality where water is a rare commodity and the land is torn apart by war. Despite the gritty realism and cynicism, the show never fails to show a glimmer of hope through Shu's actions.

If you have a penchant for poignant and dramatic classics, *Now and Then, Here and There* is just the right anime for you. While it's quite the downer, it does have moments that would make you smile.
